Independent Auditors' Report

To the Honorable President and Members of the City Council City of Warwick, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Warwick, Rhode Island, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Warwick, Rhode Island's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Warwick, Rhode Island, as of June 30, 2018 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 20 to the financial statements, during the fiscal year ended June 30, 2018, the City of Warwick, Rhode Island, adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions.* The net position of the City of Warwick, Rhode Island, has been restated to recognize the net other postemployment benefit liability in accordance with GASB No. 75. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information and the pension and OPEB schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Warwick, Rhode Island's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 23, 2019 on our consideration of the City of Warwick, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Warwick, Rhode Island's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Warwick, Rhode Island's internal control over financial reporting and compliance.

CITY OF WARWICK, RHODE ISLAND MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Warwick, we offer readers of the City of Warwick's financial statements this overview and analysis of the financial activities of the City of Warwick for the fiscal year ended June 30, 2018. We encourage readers to consider this information in conjunction with the additional information that is furnished in the letter of transmittal, which can be found preceding this narrative, and with the City's financial statements which follow.

Included within our discussion will be a series of comparative tables, serving to more clearly illustrate changes in the City's financial position. These tables will reflect governmental activities, business-type activities, and total activities for the 2017 and 2018 fiscal years.

FINANCIAL HIGHLIGHTS

At the close of the fiscal year, the liabilities of the City of Warwick exceeded its assets by \$609,299,387 (*Net Position*).

The City had a restatement related to the implementation of GASB #75 of its July 1, 2017 opening net position. This decreased the City's net position by \$246,309,020 in fiscal year 2017. The City's total net position decreased by \$15.8 million during fiscal year 2018. One key factor was a \$9.5 million decrease in the City's net pension liabilities which was offset by an increase in the net deferred pension inflows of \$13.6 million, and a decrease in the deferred pension outflows which totaled \$10.3 million. The City's total long-term debt decreased by \$12.0 million and year-end accounts payable and accrued liabilities increased by \$1.4 million. Additionally, the City's net OPEB liability decreased by \$4,248,215, thus having a positive impact on the City's net position.

At the close of the current fiscal year, the City's governmental funds reported *combined* ending fund balances of \$36,918,875, a decrease of \$5,843,509 from the prior year. This was primarily due to appropriated fund balance drawdowns for budgeted revenue within the general fund and from the reserve for education.

Fiscal 2018 operating results for the general fund reflected a net decrease in total fund balance of \$1,583,943 resulting in an ending fund balance of \$27,436,676. The fund's ending unassigned fund balance increased by \$104,489 to a total of \$22,671,446 or 7.33% of the total 2018 final budgeted expenditures.

The City's overall investment in capital assets (net of accumulated depreciation) decreased by \$133,811 during this year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Warwick's basic financial statements. The City's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, (3) notes to the financial statements. This report also contains other supplementary information including combining statements for non-major governmental funds, enterprise funds, and other fiduciary funds.

Government-wide Statements

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report on the City's *net position* and how it has changed. Net position - the difference between the City's assets and liabilities - is one way to measure the City's financial health.

- Over time, increases or decreases in the City's net position are indicators of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City you need to consider additional nonfinancial factors such as changes in the City's property tax base and the condition of the City's roads.

The government-wide financial statements of the City are divided into two categories.

- Governmental activities Most of the City's basic services are included here, such as education, public safety, library, recreation, social services, public works and general administration. Property taxes, charges for services and state funding finance most of these activities.
- Business-Type activities The City charges fees to customers to cover the costs of certain services it provides. The City's water and sewer systems are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds - not the City as a whole. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

Governmental Funds - Most of the basic services provided by the City are reported in governmental funds, which focus on (1) how money flows into and out of those funds and (2) the balances remaining at year end that are available for spending during the next year. These funds are reported using an accounting method called the modified accrual basis of accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations that helps the reader to determine whether or not there are more or fewer financial resources that can be spent in the near future to finance City programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. To facilitate this comparison, a reconciliation between the governmental funds statements and the government-wide statements has been provided.

The City maintains seventy-eight governmental funds and two are considered major funds for presentation purposes. Each major fund is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The two major governmental funds are the General Fund and the School Unrestricted Fund.

The basic governmental fund financial statements can be found on pages 17-20 of this report.

Proprietary Funds - The City of Warwick maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise fund to account for its sewer and water operations. *Internal Service Funds* are used to accumulate and allocate costs internally among functions. The City uses internal service funds to account for the workers compensation self insurance fund and the healthcare self insurance funds. Because this operation benefits predominantly governmental rather than business activities, the internal service fund has been included within the governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 21-23 of this report.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary funds financial statements can be found on pages 24-25 of this report.

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements follow the basic financial statements.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This section includes budgetary comparison schedules, as well as information concerning the City's progress in funding its obligation to provide pension benefits to employees. Required supplementary information follows the notes to the financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial health. The City's combined net position (government and business-type activities) totaled (\$609,299,387) as of June 30, 2018. The largest portion of the City's net position reflects its investment in capital assets such as land, building, equipment, and infrastructure, less any related outstanding debt. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Total Net Position	\$_	(730,387,421) \$	·	(707,573,402) \$	_	121,088,034	\$_	114,081,767	\$_	(609,299,387)	\$_	(593,491,635)		

An additional portion of the City's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the City's ongoing obligations to citizens and creditors. Internally imposed designations of resources are not presented as restricted net position. At the end of the current fiscal year, the City's unrestricted net position total was negative – this was primarily due to the full accrual of the current net pension liabilities for all six city pension plans. This accrual included Warwick's portion of the net pension liability for the state controlled teacher pension plan.

Changes in Net Position

During fiscal 2018, the government's total net position decreased by \$15,807,752, to a June 30, 2018 year end net position of (\$609,299,387):

Governmental Activities.

Governmental activities decreased the City's net position by \$22.8 million. Key elements are as follows:

- The City's net position increased by \$8.8 million due to a decrease in the City's accrued net pension liabilities which include six city and school pension plans. Accordingly the City's net position decreased by \$23.1 million following an increase of net deferred outflows (assets) relating to pension expense amortizations.
- 2. Per GASB75, the City accrued additional other post-employment benefits which decreased the City's net position by \$3.9 million. Accordingly the City's net position increased by \$14.1 million following decreases of deferred inflows (liabilities) relating to other post-employment benefit amortizations.
- 3. General Fund GAAP surplus decreased the City's net position by 1.6 million. Additionally, surpluses in the non-major governmental funds decreased the net position by \$4.2 million.
- 4. Capital asset additions (net of CIP) totaled \$11.4 million while fiscal 2018 depreciation expense amounted to \$7.3 million resulting in a \$4.1 increase to net position.

5. Changes in deferred revenue accruals decreased the City's net position by \$1.6 million and increases in compensated absences decreased net position by \$438,643.

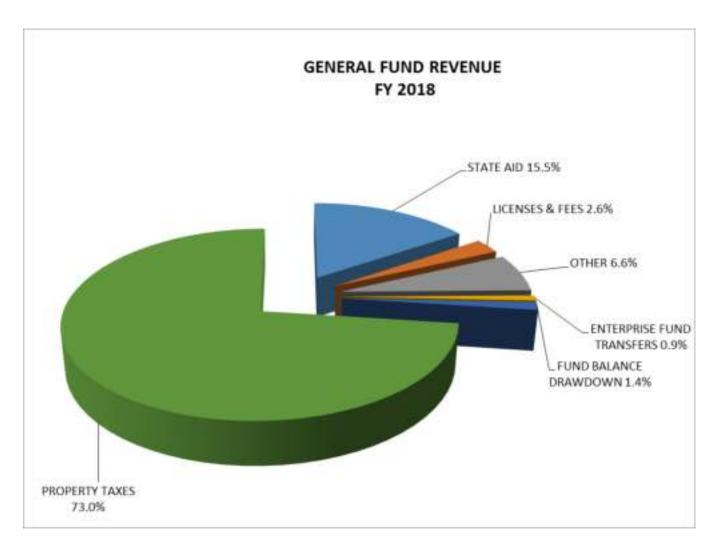

Business-type Activities.

Business-type activities increased the City's net position by \$7.0 million to an overall ending balance amount of \$121.1 million. The key elements are as follows:

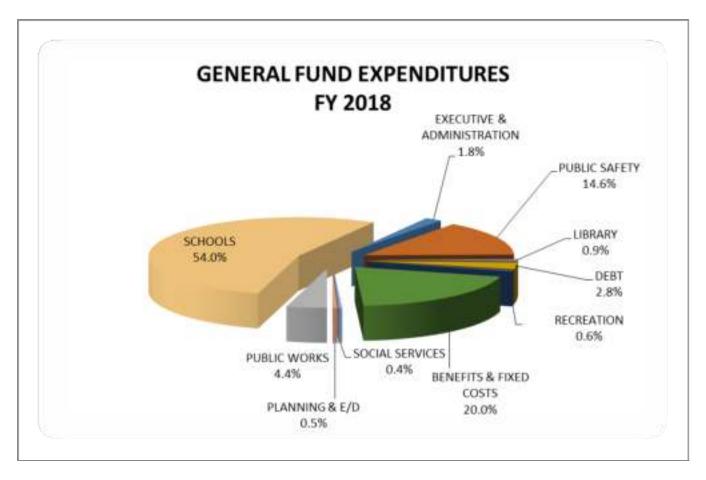

- 1. The Sewer Department reflected an overall increase in net position of \$6.5 million. The ending net position for the Sewer Department was \$104.5 million.
- 2. The Sewer Assessment Fund's ending net position totaled \$4.4 million, a decrease of \$1.0 million from the prior year.
- 3. The Water Department reflected a net position increase of \$1.2 million to an ending balance of \$5.9 million.
- 4. The Non-Major Enterprise Funds reflected an overall increase in net position of \$228,337, to an ending balance of \$6.2 million.

Financial Analysis of the Government's Funds

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$36,918,875, a decrease of \$5,843,509 in comparison with the prior year balances. \$22,646,110 or 61.3% of this the total fund balance represents unassigned fund which is available for spending at the government's discretion. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it is considered nonspendable, or has been restricted, assigned or committed.

Note: Transfers to and from other funds have been integrated into their respective categories.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund balance of the general fund was \$22,671,446. The total fund balance was \$27,436,676. As a measure of the general fund liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. The unassigned fund balance represents 7.33% of total general fund budgeted expenditures. During fiscal 2018, the unassigned fund balance of the City's general fund increased by \$104,489. This is a 0.46% increase from the prior year unassigned fund balance.

Proprietary Funds:

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Total net position of the Sewer Department amounted to \$104,505,096. The funds invested in capital assets total \$99,083,356, restricted funds total \$5,516,046, and unrestricted net position totals (\$94,306).

The net position of the Sewer Assessment Fund totaled \$4,433,550. This entire amount is unrestricted.

The net position of the Water Department totaled \$5,934,837. Of this, \$10,636,523 represents the investment in capital assets while the unrestricted portion totals (\$4,701,686). During fiscal 2018 Water's net position increased by \$1,240,737.

The unrestricted net position of the workers compensation internal service fund amounted to \$529,621. Total current liabilities was reduced by \$22,258, due to a reduction in claims payable. The net position of the City's medical healthcare internal service fund totaled \$1,088,443. The fund's net position balance is primarily composed of cash reserves which were previously held in escrow by health insurers when the City was self-insured, as well as a premium offset credit.

The Warwick School Department's medical healthcare internal service fund reflected a net position balance which totaled \$1,464,630. This balance represents a combination of \$1,444,200 in escrow cash reserves held by the insurers, plus \$1,252,686 in surplus funds (excess of premiums paid vs. claims paid) held by WB Community Health, less outstanding IBNR claims totaling \$1,232,256.

General Fund Budgetary Highlights

During fiscal 2019, the City's original budget of \$305,271,737 was increased by \$4.2 million to \$309,490,408. The following budgetary adjustments were made during the year:

- A budget transfer in the amount of \$1,218,671 represented the re-appropriation of the fiscal 2017 school surplus to the School Department. The prior year education reserve funded this transfer.
- A budget transfer in the amount of \$3,000,000 was approved, providing the additional funds to the school department, with the funding source being a drawdown from the City's unrestricted fund balance.

Capital Assets and Debt Administration

Capital Assets.

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2018, amounted to \$310,991,699 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery & equipment, roads and construction in progress. During this year, the City's overall investment in capital assets (net of accumulated depreciation) decreased by approximately \$133,811.

Major capital asset additions during the current fiscal year included the following:

- 1. Fire Code Improvements-Various City Buildings \$421,507
- 2. School Consolidation Improvements \$10,860,932
- 3. Road Resurfacing \$980,154

Additional information on the City's capital assets can be found in Note 8 of the notes to the financial statements of this report.

Long-term Debt.

At the end of the fiscal year, the City had total bonds and loans outstanding of \$133,934,768. It is broken down as follows:

•	General Fund Bonds Payable	\$ 45,912,531
•	Water Bonds Payable	\$ 67,668
•	Sewer Bonds Payable	\$ 8,551,801
•	Sewer SRF Loans Payable	\$ 79,402,768

General obligation bonds are backed by the full faith and credit of the City, including the City's power to levy additional taxes to ensure repayment of the debt. Accordingly, all general obligation debt currently outstanding was approved by a vote of the citizens. During fiscal 2019, the City of Warwick's general fund general obligation debt reflected a net decrease of \$641,909. Sewer debt decreased by \$11,014,750, and water debt decreased by \$26,671.

The City's bond ratings are as follows:

Moody's		.A1
Standard	& Poors	AA

State statue limits the amount of bonds a governmental entity can issue to 3% of its total assessed valuation. The current debt limitation for the City is \$278,457,754. As of June 30, 2018 the City's current outstanding general fund debt falls under the debt limitation by \$232,545,223.

Additional information on the City's long-term debt can be found in Note 10 of the notes to the financial statements and in the statistical tables.

Economic Factors and Next Year's Budgets and Rates

- Warwick's average unemployment rate is 3.5%.
- Median family income in Warwick was \$87,369.
- Warwick ranks third in population among Rhode Island's 39 cities and towns.

The following factors were considered in preparing the City's operating budget for the 2018-19 fiscal year.

- The School Department budget will increase to \$165.4 million.
- The City's health care coverage will be administered by WB Community Health.
- Initially \$3.8 million was drawn from the City's fund balance and designated for the FY2018 operating budget.

The following factors were considered in preparing the City's operating budget for the 2019-20 fiscal year.

- The School Department budget will increase to \$165.9 million.
- The City's health care coverage will be administered by WB Community Health.
- Initially \$2.4 million was drawn from the City's fund balance and designated for the FY2018 operating budget.

Currently, the unassigned fund balance in the general fund totals \$22,671,446. While the City has maintained its commitment toward ensuring a steady growth for the City surplus, it has sometimes been necessary to utilize part of this surplus to ease the burden on its taxpayers. In the final fiscal 2019 budget, the tax rate for residential property remained constant at \$20.80, the commercial and industrial tax rate remained constant at \$31.19, and the tangible personal property rate remained constant at \$41.59. Per Rhode Island law, the inventory tax was phased out and the motor vehicle tax rate remained constant at \$34.60.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any information provided in this report or requests for additional financial information should be addressed to the Controller, City of Warwick Treasurer's Office, 3275 Post Road, Warwick, RI 02886-7145.

CITY OF WARWICK, RHODE ISLAND BALANCE SHEET - GOVERNMENTAL FUNDS (CONTINUED) JUNE 30, 2018

Reconciliation of the Balance Sheet - Governmental Funds to the Statement of Net Position:

Amounts reported for governmental activities in the statement of net position (Exhibit I) are different because of the following:

Fund balances - total governmental funds (Exhibit III)

\$ 36,918,875

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds:

Governmental capital assets \$ 433,498,430 Less accumulated depreciation (308,529,655)

Net capital assets 124,968,775

Other long-term assets and deferred outflows are not available to pay for current-period expenditures and, therefore, are deferred in the funds:

Property tax receivables greater than 60 days
Interest receivable on property taxes
Other departmental revenues
Other departmental revenues

CITY OF WARWICK, RHODE ISLAND STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2018

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities:

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because of the following:

Net change in fund balances - total governmental funds (Exhibit IV)

\$ (5,843,509)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	11,361,372
Depreciation expense	(7,252,984)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes collected after 60 days	339,932
Property interest and lien revenue - accrual basis change	102,288
Other departmental revenues	1,208,044
Deferred outflows related to pensions	(9,463,840)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Bonds issued	(4,460,000)
Premium on issued bonds	(429,773)
Bond payments	5,101,909
Capital lease issued	(321,207)
Capital lease payments	1,433,570
Accrued interest	(21,709)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Deferred inflows related to pensions	(13,641,993)
Deferred inflows related to OPEB	(14,120,244)
Amortization of bond premiums	225,741
Deferred charges on refunding	(41,506)
Change in compensated absences	438,643
Change in retroactive payroll	25,576
Change in net pension liability	8,853,508
Change in net OPEB obligation	3,909,691

The net expense of the internal service funds is reported with governmental activities. (217,528)

Change in Net Position of Governmental Activities (Exhibit II) \$ (22,814,019)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Warwick, Rhode Island (the City) have been prepared in conformity with principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing government and financial reporting principles. The following notes to the basic financial statements are an integral part of the City's Financial Report.

A. Reporting Entity

The City was established in 1642 and incorporated in 1931. In some matters, including the issuance of short- and long-term debt, the City is governed by the general laws of the State of Rhode Island. The City operates under a Council-Mayor form of government and provides the following services as authorized by its charter: public safety (police, fire and inspections), public works (sanitation, highways and streets, engineering and building maintenance), education, parks and recreation, social services and general administrative services.

The City complies with generally accepted accounting principles (GAAP). GAAP include all relevant Government Accounting Standards Boards (GASB) pronouncements. In the government-wide statement of net assets and statement of activities, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. Enterprise funds also apply the same principles. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting entity, the City applied the criteria prescribed by GASB Statement No.61. Under GASB Statement No. 61, a legally separate entity is required to be included as a component unit if it is fiscally dependent upon the primary government and there is a financial benefit or burden relationship present. The primary government is financially accountable if it appoints the voting majority of the organization's governing board and 1) it is able to impose its will on that organization, or 2) there is a potential for the organization to provide specific financial benefits to, or impose specific burdens on, the primary government. A potential component unit has a financial benefit or burden relationship with the primary government if, for example, any one of the following conditions exists:

- The primary government is legally entitled to or can otherwise access the organization's resources.
- The primary government is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization.
- The primary government is obligated in some manner for the debt of the organization.

The following entity was considered for classification as a component unit:

Warwick School Department

Although Warwick School Department met certain criteria of the tests listed above, it is not deemed to have separate legal status apart from the City. As a result, the financial data of the Warwick School Department has been included as a major special revenue fund within the City's financial statements.

B. Basis of Presentation

Government-Wide Financial Statements

The statement of net position and statement of activities report information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflow of resources, fund equity, revenues and expenditures. Funds are organized into three major categories: governmental, proprietary and fiduciary. Major individual governmental funds and enterprise funds are reported as separate columns in the fund financial statements. A fund is considered a major fund if it is the primary operating fund of the City or meets the following criteria:

- Total assets and deferred outflow of resources, liabilities and deferred inflow of resources, revenues, or expenditures of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- Total assets and deferred outflow of resources, liabilities and deferred inflow of resources, revenues, or expenditures of the individual, governmental fund or enterprise funds are at least 5% of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described below:

The *General Fund* is the City's primary operating fund of the City and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

The *Special Revenue Funds* are used to account for the proceeds of specific revenue sources that are committed or restricted to expenditures for specific purposes other than debt service or capital projects.

The Capital Project Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The *Permanent Funds* account for assets held by the City pursuant to trust agreements. The principal portion of this fund type must remain intact, but the earnings may be used to achieve the objectives of the fund.

The Proprietary Funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. Operating revenues of the proprietary funds consist of customer/taxpayer charges for uses and services and certain other miscellaneous revenue. Operating expenses for the enterprise funds include costs of providing services, including administration and depreciation on capital assets. All other expense items not meeting the above criteria are reported as non-operating expenses. The City has three internal service funds which are used to pay insurance expenses relating to workers and employee fringe benefits claims.

The *Agency Funds* account for assets held by the City in a purely custodial capacity for various student groups, funds held in probate and funds held in escrow for other parties.

The *Pension Trust Funds* account for the funding and payment of pension benefits provided to police officers, fire fighters and municipal and school employees.

The *Private Purpose Trust Funds* account for resources legally in trust held by the City under various trust arrangements for the benefit of certain individuals and groups.

Brief Description

Major Funds

Fund

The City reports the following major funds:

	Billion Bedelington
Governmental	
General Fund:	See above description
School Unrestricted Fund:	The fund is used to report all financial transactions of the City of Warwick's School Department, which are not legally required to be accounted for separately. The set aside funds: School Debt Service Fund, Early Childhood, Literacy, Student Equity, Language Assistance, Technology, Building Use, Adult Continuing Education, Athletic Gate Receipts. Summer School and Commercial Foods are included in this fund.
Proprietary	
Sewer Fund:	Accounts for sewer use fees and the expenses associated with providing sewer services to City residents.
Sewer Assessment Fund:	Accounts for special assessments related to the construction of the City's sewer system, which are payable over 20 years.
Water Fund:	Accounts for water use fees and the expenses associated with water services to City residents.

Measurement Focus

On the government-wide statement of net position and the statement of activities both governmental and business-like activities are presented using the economic resources management focus as defined in item (b) below and the accrual basis of accounting. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- All governmental funds utilize a "current financial resources" measurement focus and the modified
 accrual basis of accounting. Only current financial assets, deferred outflow of resources, liabilities and
 deferred inflow of resources are generally included on their balance sheets. Their operating statements
 present sources and uses of available spendable financial resources during a given period. These
 funds use fund balance as their measure of available spendable financial resources at the end of the
 period. The City considers property taxes as available if they are collected within 60 days after year
 end.
- The proprietary funds and private purpose trust funds utilize "economic resources" measurement focus and the accrual basis of accounting. The accounting objectives of this measurement focus are the determination of net income, financial position and cash flow. All inflows of resources associated with their activities are reported. Fund equity is classified as net position.
- Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of Accounting

In the government-wide statement of net position and statement of activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic assets used. Revenues, expenses, gains, losses, assets, deferred outflow of resources, liabilities, and deferred inflow of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues such as property taxes, are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary funds, private purpose trust funds, police, fire & city and school employees' pension trust funds, and agency funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded as when the liability is incurred or the economic asset is used.

Amounts reported as program revenues include, charges to customers or applicants for services or privileges provided, operating grants and contributions, and capital grants and contributions. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with proprietary fund's principal operation. The principal operating revenue of the enterprises fund are charges for services provided in accordance with the fund's purpose. Operating expenses for the enterprise fund include the costs of providing the services, including administration and depreciation on capital assets. All other revenue and expense items not meeting these criteria are reported as nonoperating revenues and expenses.

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

C. Cash

Cash and cash equivalents are carried at cost. Cash equivalents include amounts invested in certificate of deposits as management believes that these certificates can be accessed at any point in time. Substantially, all of the City's cash and cash equivalents are held in public deposit institutions. Pursuant to Section 35-10-1 of the Rhode Island General Laws, as of October 1, 1991, public institutions are required to insure accounts which hold public funds in excess of the \$250,000 which is guaranteed by FDIC. At times, the City pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

D. Investments

Investments are reported at fair value. Investments are disclosed in accordance with GASB Statement No. 40, *Deposits and Investments Risk Disclosures*.

E. Accounts and Taxes Receivable

Receivables consist of all revenues earned at year-end and not yet received. Major receivable balances for the governmental activities include property taxes, other receivables and intergovernmental receivable. Business-type activities report service fees as its major receivables.

Accounts receivable and taxes receivable are shown net of an allowance for uncollectible accounts. The allowances are calculated based on the age of the individual receivables. In the fund financial statements, material receivables in governmental funds include revenue accruals such as property taxes collected within 60 days of year-end, grants, and other similar intergovernmental revenues since they are usually both measurable and available. Nonexchange transactions earned/measurable but not yet available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Proprietary fund material receivables consist of all revenues earned at year end and not yet received. Allowances for uncollectible accounts receivables are based upon historical trends and the periodic aging of accounts receivable. The allowance for uncollectible accounts receivable amounted to \$11,546,161 for the general fund and \$256,253 for business-type activities at June 30, 2018.

Major receivable balances for the governmental activities include property taxes, amounts due from federal and state government and other receivables (49% of total government receivables). Business-type activities report service fees as its major receivables.

F. Unbilled Services Receivable

Sewer and water revenue is recorded when earned. Customers are billed quarterly. The estimated value of services provided but unbilled at year end has been included in the accompanying financial statements.

G. Property Taxes

Real and personal property taxes are based on values assessed as of each December 31 (lien date) and attach as an enforceable lien on property as of July 1 (levy date). Taxes are due in equal quarterly installments on July 15, October 15, January 15 and April 15 annually. Taxes due and unpaid after the respective due dates are subject to interest rate at the rate of 12% per annum, calculated on the unpaid portion of the total tax. An automatic lien is placed on the taxpayer's property if payment has not been received by the tax due date. Property taxes levied are recorded as receivables in the fiscal year of levy. Property tax revenues are recorded in accordance with the modified accrual basis of accounting in the fund financial statements.

H. Inventory

Inventory is maintained on a periodic system and is stated at cost (first in, first out method of inventory valuation). Inventory consists primarily of materials and supplies. Inventory maintained in governmental funds are recorded as expenditures when at the time of purchase.

I. Capital Assets

The accounting treatment for property, plant and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

The government-wide financial statements include all infrastructure assets in accordance with GASB Statement No. 34.

Depreciation of all exhausted capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position.

Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Description	Useful Life
Land improvements	20 years
Buildings	50 years
Roads and resurfacing	20 years
Bridges	50 years
Traffic signals	10 years
Main extensions	75 years
Pumping stations and hydrants	50 years
Wastewater collection system	50-75 years
Meters	20-40 years
Distribution lines	65 years
Machinery, equipment and furniture	5-30 years
Vehicles	5-8 years

Government-Wide Financial Statements

All capital assets are value at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets, which are being recorded at their estimated fair value at the date of donation. Capital assets that are not being depreciated are placed in service using the replacement method of cost for any new assets and the expense is charged to depreciation.

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide financial statements.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports a deferred charge on refunding and deferred outflows related to pension in the government- wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred outflow of resources related to pension results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees).

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. The City reports advance property tax collections in the government-wide statement of net position and in the governmental funds balance sheet. The City also reports deferred inflows of resources related to pensions and OPEB in the government-wide statement of net position. Advance property tax collections represent taxes inherently associated with a future period. This amount is recognized during the period in which the revenue is associated. A deferred inflow of resources related to pension and OPEB results from differences between expected and actual experience, changes in assumptions or other inputs. amounts are deferred and included in pension and OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees). In addition, for governmental funds, the City reports unavailable revenue, which arises only under the modified accrual basis of accounting. The governmental funds report unavailable revenues from several sources: property taxes, other City billings and solid waste management receivables. These amounts are deferred and recognized as an inflow of resources (revenue) in the period in which the amounts become available.

K. Inter-fund Transactions

Inter-fund activity within and among the funds of the City have been classified and reported as follows:

Reciprocal Inter-Fund Activities

Inter-fund loans are reported as inter-fund receivables in the lending fund and inter-fund payables in borrower funds.

Inter-fund services are reported as revenues in the seller fund and as expenditures on expenses in the purchasing fund.

Nonreciprocal Inter-Fund Activities

Inter-fund transfers are reported in governmental funds as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers. In proprietary funds, transfers are reported after nonoperating revenues and expenses.

Inter-fund reimbursements are repayments from the fund responsible for particular expenditures or expenses to other funds that initially paid for them. Reimbursements are not displayed separately within the financial statements.

Inter-fund transactions are accounted for as expenditures/expenses when they constitute reimbursements from one fund to another. These transactions are accounted for as expenditures/expenses in the reimbursing fund and are recorded as reductions of expenditures/expenses in the fund receiving the reimbursement. All other inter-fund transactions are reported as transfers.

L. Taxes Collected in Advance

Tax collected in advance pertains to property taxes levied on June 30, 2018 (for fiscal year 2019) and paid prior to June 30, 2018. These advance payments could not be recognized as revenue in fiscal year 2018 and instead were reported as deferred inflows at June 30, 2018.

M. Self-Insurance

The City's self-insurance costs for health and general liabilities are accounted for in the City's internal service funds. Claims incurred but not paid, including those which have not been reported, are accounted for as expenses and accrued claims in those funds when incurred.

N. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in governmental funds. Open encumbrances at year end are reported as restricted, committed or assigned, and should not result in separate display of the encumbered amount within those classifications. Encumbrances do not constitute expenditures or liabilities under generally accepted accounting principles.

O. Net Position/Fund Balance Classifications

Government-Wide Statements

Net position is classified as net assets and displayed in three components:

- Net investment in capital assets, net of related debt consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bond, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted net position Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, laws/regulations of other governments, law through constitutional provisions, or enabling legislation.
- Unrestricted net position All remaining net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Financial Statements

Governmental fund equity is classified as fund balance in accordance with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. Fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. These categories are described below:

- Nonspendable Includes the amount of fund balances that cannot be spent because it is either not in spendable form or legally or contractually required to be maintained intact.
- Restricted Includes amounts that are restricted to specific purposes. Fund balance is reported as restricted when constraints placed in the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- Committed Fund Balance Includes amounts that can be used only for the specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The City Council is the highest level of decision-making authority and utilizes City Ordinances as a formal procedure to commit fund balance. In addition, the passage of the budget by the taxpayers at the annual financial City meeting is considered the commitment of funds for the line items included in the fiscal budget.
- Assigned Fund Balance Includes amounts that are constrained by the government's intent to be used
 for specific purposes, but are neither restricted nor committed. The intent should be expressed by the
 governing-body itself or a body (a budget or finance committee) or official to which the governing-body
 has delegate the authority to assign amounts to be used for specific purposes. The Mayor through the
 City Council has the authority to assign fund balance. Fund balance assigned by the Finance Director
 is documented through issuance of a memorandum
- Unassigned Fund Balance Is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The unassigned fund balance may also include negative balances for any governmental funds if the expenditures exceed amounts restricted, committed or assigned for specific purposes.

Application of Funds

The following policy has been established by the City in order to address the implementation of Governmental Accounting Standards Board (GASB) Statement No., 54, Fund Balance Reporting and Governmental Funds Definitions. The policy is created in consideration of unanticipated events that could adversely affect the financial condition of the City and jeopardize the continuation of necessary public service. The policy ensures that the City maintains an adequate fund balance and reserves in order to:

- Provide sufficient cash flow for daily financial needs
- Provide funds for unforeseen expenditures related to emergencies
- · Offset significant economic downturns or revenue shortfalls
- Maintain investment grade bond ratings

The City maintains a spending policy in accordance with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This policy states when an expenditure is incurred for purposes for which both restricted and unrestricted amounts are available, it shall be the policy of the City is to consider restricted amounts to have been used first. When expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it shall be the policy of the City that committed funds would be spent first, followed by assigned amounts and then unassigned amounts.

Proprietary fund equity is classified the same as in the government-wide statements.

P. Judgments and Claims

Liabilities for legal cases and other claims against governmental funds are recorded when the ultimate liability can be estimated and such cases are expected to be liquidated with expendable available financial resources. Proprietary fund types record these liabilities using the accrual basis of accounting.

Q. Compensated Absences

Under the terms of various contracts and agreements, City employees are granted vacation, sick and personal leave in varying amounts based on length of service and bargaining unit. Unused vacation leave is paid upon an employee's termination. Up to one-half of unused sick-leave is paid upon termination, retirement or death depending on bargaining unit. Severance pay and personal days are also paid to terminating employees depending on bargaining unit. The liability is calculated at the rate of pay in effect at June 30, 2017. The City estimates the long-term versus short-term amount of earned but unpaid vacation and sick leave relating to governmental fund employees and records it in the applicable section of the liabilities in the government-wide financial statements.

R. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's various pension plans (described in greater detail in Note 14) and additions to/deductions from the pension plans net position have been determined on the same basis as they are reported by the pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

S. Total Other Postemployment Benefits other than Pensions (OPEB) Liability

The total OPEB liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service. The total OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year and no later than the end of the current fiscal year, consistently applied from period to period.

T. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

U. Recent Accounting Pronouncements

The GASB has issued several pronouncements that have effective dates that may impact future financial presentations.

Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements.

GASB Statement No. 83, Certain Asset Retirement Obligations

This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

GASB Statement No. 84, Fiduciary Activities

The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on 1) whether a government is controlling the assets of the fiduciary activity, and 2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

GASB Statement No. 87, Leases

The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Data and Budgetary Compliance

In accordance with the Warwick City charter, the City has formally established budgetary accounting control for the General Fund and the School Unrestricted Fund, which is a Special Revenue Fund. The General Fund is subject to an annual operating budget submitted and recommended by City Mayor and adopted by the City Council. The City Council must hold a public hearing on the budget prior to adoption and may make changes to the budget. The General Fund Budget must be adopted no later than June 15. Should the City Council take no formal action on or prior to such day, the budget as submitted by the Mayor, shall be deemed to have been finally adopted by the City Council. The School Unrestricted Fund is subject to an annual operating budget provisionally approved by the School Committee. forwarded to the Mayor, for his review and possible amendment, with final adoption by the City Council. The annual operating budgets; appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. The City's General Fund and School Unrestricted Fund annual operating budgets are in conformance with the legally enacted budgetary basis, which is not in conformance with accounting principles generally accepted in the United States of America. The accompanying budgetary comparison schedules are reflected on the budgetary basis. The difference between the budgetary basis and the accounting principles generally accepted in the United States of America basis is explained below.

The City of Warwick makes use of an encumbrance system. Encumbrances are commitments related to unperformed contracts for goods and services. When a purchase order or commitment is placed, the City reduces the amount of the budgetary authority remaining in a budget category and records an encumbrance. When goods or services are received, the encumbrance balance is reduced and an expenditure and liability is recorded. The City's outstanding encumbrances at year-end are carried forward as a component of committed fund balance.

Appropriations in addition to those contained in the annual operating budgets, except for the purpose of meeting a public emergency, are made upon the recommendation of the City Mayor and by a resolution adopted by the favorable votes of at least five members of the council. Amendments to the operating budgets that do not result in additional appropriations may be made within departments by means of a transfer. The Director of Finance, subject to approval of the Mayor, may at any time transfer any unencumbered appropriation balance or portion thereof between general classifications of expenditures within an office, department or agency. At the request of the Mayor and within the last three months of the fiscal year, the Council may by resolution transfer any unencumbered appropriation balance or portion thereof from one office, department or agency to another. The level at which General Fund expenditures may not legally exceed appropriations is at the department level. The Schools Unrestricted Fund, a Special Revenue Fund, does not have a legal level of control over expenditures, except that total expenditures may not exceed available revenues. Appropriations which are not expended or encumbered lapse at year end.

B. Excess of Expenditures over Appropriations

For the year ended June 30,2018, expenditures exceeded appropriations in the following categories:

Probate court	\$	13,345
Finance administration	·	25,707
Fire department		1,613,006
Organized crime/drug enforcement task force		2,888
Alcohol and highway safety enforcement		28,621
Administrative division		7,729
Sanitation division		137,261
Employee benefits		86,151
Insurance		193,214
Postage		15,329
Fixed costs		44,157
Pension		152,989
Operating transfer to school unrestricted fund		10,350

3. CASH DEPOSITS WITH FINANCIAL INSTITUTIONS

A. Deposits

Substantially, all of the City's cash and cash equivalents are held in public deposit institutions. Pursuant to Section 35-10-1 of the Rhode Island General Laws, as of October 1, 1991, public deposit institutions are required to insure accounts that hold public funds in excess of the \$250,000 that is guaranteed by FDIC. At times, the City pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

B. Deposit Custodial Credit Risk

Custodial credit risk in the case of deposits is the risk that in the event of a bank failure, the City's deposits may not be returned. The State of Rhode Island requires that certain uninsured deposits be collateralized. Section 35-10.1-7 of the General Laws of the State of Rhode Island, dealing with the collateralization of public deposits, requires that all time deposits with maturities of greater than 60 days and all deposits in institutions that do not meet the minimum capital requirements of its federal regulator must be collateralized. The City does not have a formal deposit policy for custodial credit risk, but is governed by State laws as described above.

As of June 30, 2018, the City's entire bank balance of \$55,419,181 was covered by either FDIC insurance or collateral held in the City's name.

C. Cash Equivalents

Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash and purchased within 90 days of maturity. As of June 30, 2018, cash equivalents amounted to \$17,588,715. The cash equivalents consisted of money market type mutual funds held at banking institutions and were not rated.

4. INVESTMENTS

The City invests in various types of investments, which are stated at fair value, except for nonparticipating interest earning investment contracts, which are recorded at amortized cost. By Charter the Finance Director and Treasurer have the authority to make investments subject to rules and regulations that the City Council may prescribe by ordinance. The Finance Director shall have the authority to purchase and invest prudently in the following investments for funds other than pension funds:

- Obligations of the United States government, and its agencies and instrumentalities.
- Certificates of deposit and other evidence of deposit at banks, credit unions, and savings and loan associations with offices in the State.
- · Bankers' acceptance of banks with offices in the State.
- Commercial paper of banks with offices in the State.
- Repurchase agreements whose underlying collateral consists of U.S. government agency securities
 and U.S. government sponsored corporations, plus the above, and which are offered by banks with
 offices in the State.
- Money market funds whose portfolios consist of the above instruments, and any other investments specifically approved by the City council.
- No-load open-end diversified management investment companies incorporated under Rhode Island General Laws designed exclusively for all State government entities, agencies and instrumentalities.

Interest Rate Risk

This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The City has no investments that are subject to interest rate risk.

Credit Risk

Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by nationally recognized rating organization. U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. The City has no formal investment policy that limits investment choices for its pension funds.

Concentration of Credit Risk

The City does not have a formal investment policy that limits the amount that can be invested with one issuer. Currently, the City has no investments, to which this requirement applies, in any one issuer that represents more than 5% of the total investments.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of financial institution failure, the City's deposits and/or investments may not be returned. The City does not believe that it has significant custodial credit risk as substantially all investments securities are registered and held in the name of the City. Additionally, the City places deposits in financial institutions that are FDIC insured up to \$250,000, rated "well capitalized" on its most recent audited financial statement/SEC filings if deposits exceed engage an outside rating agency to determine status of the institution. The City also ensures that all uninsured deposits greater than \$250,000 are collateralized.

The following is a schedule of the City's Investments by classification:

	ring investments at fair value: me securities \$ 56,6 estments 82,6 ds 318,7 2,7			Investment Maturities (Years)												
	_	Fair Value	_	Less than 1		1-10	More than 10									
Interest-bearing investments at fair value: Fixed income securities	\$	56,544,779	\$_		_\$_	56,544,779 \$										
Equity investments Mutual funds Index funds Group annuity contracts	_	82,664,094 318,395,311 72,216,910 4,275,997														
Total Investments	\$_	534,097,091														

Presented below is the ratings of the City's fixed income securities:

Average Rating		Fixed Income Securities
AAA AA A BBB BB B Unrated	\$	3,343,758 1,679,482 7,305,303 12,975,766 396,630 573,223 30,270,617
	\$_	56,544,779

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets or with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements). The City has the following recurring fair value measurements as of June 30, 2017:

		Fair Value		Level 1		Level 2	Level 3
Investments by fair value level:	_						
Fixed income securities	\$	56,544,779	\$		\$	56,544,779	\$
Equity investments		82,664,094		82,664,094			
Mutual funds		72,216,910		72,216,910			
Index funds		318,395,311		318,395,311			
Group annuity contracts	_	4,275,997			_		 4,275,997
Total Investments by Fair Value	\$_	534,097,091	\$_	473,276,315	\$_	56,544,779	\$ 4,275,997

5. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Legal Debt Margin

The City's legal debt margin as set forth by the State Statute is limited to 3% of total taxable assessed value, which approximates \$278,457,754. As of June 30, 2018, the City's debt applicable to the debt limitation is under the debt limit by \$232,545,223. All other City debt has been incurred through special statutory authority which consists of approval by the legislature and voter referendum.

6. PROPERTY TAXES

The City is responsible for assessing, collecting and distributing property taxes in accordance with enabling state legislation.

Net property taxes levied for the fiscal year 2018 were based on a gross assessed value of approximately \$9,647,107,318 less exemptions of \$365,182,189 for a net assessed valuation of \$9,281,925,129 at December 31, 2016 and amounted to a levy of \$230,002,820. After abatements and adjustments, the net levy amounted to \$223,451,549. Collections through June 30, 2018 amounted to \$223,451,549, which represents approximately 97.4% of the adjusted tax levy.

The City recognizes property tax revenues in accordance with Section P70, "Property Taxes" of the Codification of Governmental Accounting and Financial Reporting Standards on the fund statements. Unpaid property taxes as of June 30, 2018 amount to \$18,808,835 and are recorded as a receivable, net of an allowance for uncollectible property taxes of \$12,516,278.

Those net property taxes receivable, which were not collected within the 60 days immediately following June 30, 2018 are recorded as deferred and amounted to \$4,572,171. Property taxes recognized as revenue on the fund statements for the fiscal year ended June 30, 2018 (due to their collection within the 60 days immediately following June 30, 2018) amounted to \$1,720,385. Taxes are due in equal quarterly installments on July 15, October 15, January 15 and April 15 during fiscal year.

7. RECEIVABLES

Below is the detail receivables as of year end for each major fund and the aggregate remaining funds, including the applicable allowances for uncollectible accounts:

		General	_	School Restricted Fund		Sewer Fund		Sewer Assessment Fund		Water Fund		Nonmajor and Other Funds		Total
Receivables:

Payments on the bonds and capital leases payable that pertain to the City's Governmental Activities are made by the Debt Service Fund. The compensated absences liability attributable to the Governmental Activities will be liquidated by the City's General Fund and School Unrestricted Fund. The net pension obligation and net other post-employment benefits obligation attributable to the Governmental Activities will be liquidated by the City's General Fund and School Unrestricted Fund. The accrued retroactive payroll will be paid by the School Unrestricted Fund.

	\$	45,912,531	\$_	9,259,508	\$_	55,172,039

Note - does not include voluntary payments to School RIHEBC bond sinking fund

Business-Type Activities

Year Ended June 30,		Principal		Interest	_	Total Debt Service
2019 2020 2021 2022 2023 2024-2027	\$	1,311,805 1,349,300 1,381,659 1,216,585 1,131,449 2,228,671	\$	226,459 194,486 163,383 132,514 94,746 100,011	\$	1,538,264 1,543,786 1,545,042 1,349,099 1,226,195 2,328,682
	\$_	8,619,469	\$_	911,599	\$_	9,531,068

School RIHEBC Bonds

The proceeds from the bonds were used to finance the acquisition, construction, furnishing and equipping of schools and school facilities, including but not limited to various school renovation projects, and to pay the costs of issuance. The \$3,908,000 bond and \$4,212,000 bond require sinking fund deposits to be held on deposit by the trustee and will be paid to the bondholders in full May 2027 for both bonds. While these sinking fund deposits do not allow the City to present these payments as retirements of the respective debt, the City has effectively accumulated \$3,045,000 to retire the debts in 2027. These restricted funds are shown as restricted fund balance within the debt service fund.

The future sinking fund deposit required to amortize the 2010 Revenue Bonds of \$3,908,000 and \$4,212,000 are as follows:

	\$3,908,	000 Revenue Bo	nd		\$4	,212,000 Revenue E	Bond

D. Loans Payable

The City has entered into nineteen loan agreements with the Rhode Island Infrastructure Bank, formerly known as Rhode Island Clean Water Finance Agency. The loan proceeds are to be used by the City for the extension and upgrade of the City's sewer system. The Bank advances loan proceeds to the City periodically to reimburse the City for capital costs incurred on the projects. The following loan agreements were active as of June 30, 2018:

		Interest	
Agreement Date	 Amount	Rate	Maturity Dates
June 26, 1998	\$ 10,200,000	2.57%	September 1, 1999-2019
August 25, 1999	14,750,000	2.84%	September 1, 2002-2019
December 19, 2000	20,232,323	2.90%	September 1, 2001-2020
April 25, 2002	12,000,000	1.25%	September 1, 2002-2022
October 24, 2002	20,000,000	1.00%	September 1, 2004-2022
November 13, 2003	20,000,000	1.34%	September 1, 2005-2024
December 30, 2004	20,000,000	1.40%	September 1, 2006-2025
December 15, 2005	5,000,000	1.41%	September 1, 2007-2026
December 21, 2006	9,500,000	1.27%	September 1, 2008-2027
December 12, 2007	6,942,000	1.185-1.645%	September 1, 2009-2028
April 30, 2008	4,000,000	4.85%	September 1, 2009-2028
October 6, 2009	1,169,026 *	2.16%	September 1, 2010-2029
June 26, 2012	2,400,000	3.29%	September 1, 2012-2022
March 6, 2014	7,000,000	2.71%	September 1, 2014-2034
March 31, 2015	3,500,000	1.95%	September 1, 2015-2034
July 30, 2015	10,574,900	2.16%	September 1, 2015-2034
June 2, 2016	8,000,000	1.74%	September 1, 2016-2035
April 13, 2017	3,730,000	1.90%	September 1, 2018-2037

^{*} SFR/Stimulus Loan is shown net of \$178,601 principal forgiveness the City pays an additional 0.5% finance fee on all loans except for the loan dated April 30, 2008

The loan proceeds are to be used by the City for the extension and upgrade of the sewer system. The Bank pays project invoices certified by the City directly to the contractors or reimburses the City for costs incurred on the projects. As of June 30, 2018, loans payable of \$79,402,768 are reflected in the Sewer Fund. A due from the Rhode Island Infrastructure Bank of \$11,936,334 is shown for that portion of the loans, which has not been advanced as of June 30, 2018. The City is responsible to draw down and to repay the full amount of the loan.

The debt service through maturity for the above loans is as follows:

Fiscal Year Ending June		Principal		Interest
2019	\$	9,839,149	\$	1,841,348
2020 2021		10,046,111		1,611,013
2021		8,543,796 7,378,378		1,399,396 1,229,951
2023		7,529,974		1,076,166
2024-2028		20,865,603		3,586,430
2029-2033 2034-2037		9,961,857 5,237,900		1,604,416 218,316
2007-2001	_	3,237,900	-	210,310
	\$	79,402,768	\$_	12,567,036

Interest, at the fixed rates indicated above, is calculated monthly based on the loan balances outstanding. The City has not completely drawn down all of the loans as of June 30, 2018. The interest through maturity shown above is based upon estimated amortization schedules prepared by Rhode Island Infrastructure Bank. The Rhode Island Infrastructure Bank loans dated December 30, 2004, December 15, 2005, December 21, 2006, December 12, 2007, April 30, 2008, October 6, 2009, June 26, 2012, March 6, 2014 and March 31, 2015, July 30, 2015, June 2, 2016 and April 13, 2017 are revenue loans. The revenue loans are secured by the revenues derived from the operation of the City's wastewater collection system.

E. Debt Service Requirements

The City's business-type debt service requirement relating to outstanding bond and loan obligations consist of the following:

					Debt
Fiscal Year Ending June	_	Principal	Interest		Service
2019	\$	11,150,954 \$	2,067,807	\$	13,218,761
2020		11,395,411	1,805,499		13,200,910
2021		9,925,455	1,562,779		11,488,234
2022		8,594,963	1,362,465		9,957,428
2023		8,661,423	1,170,912		9,832,335
2024-2028		23,094,274	3,686,441		26,780,715
2029-2033		9,961,857	1,604,416		11,566,273
2034-2037		5,237,900	218,316	_	5,456,216
				-	
	\$_	88,022,237 \$	13,478,635	\$	101,500,872

F. Bonds Authorized but Unissued

The following table sets forth amounts, purposes and statutorily authorized, but unissued general obligation debt of the City.

Purpose	Statutory Authorization		Authorized But Unissued Debt
Incinerator purposes	P.L. Ch. 33-1966	\$	1,900,000 *
Energy conservation	P.L. Ch. 65-1980		600,000
Sewer improvements	P.L. Ch. 223-1994		417,677
Open space	P.L. Ch. 77-2000		175,000
Open space	P.L. Ch. 125/479-2006		2,000,000
Recreation	P.L. Ch. 77-2000		500,000
Parks and recreation	P.L. Ch. 74/147-2006		3,500,000
Drainage	P.L. Ch. 78-2002		3,000,000
Building repairs	P.L. Ch. 426/527-2006		5,500,000
Mickey Stevens Sports Complex	P.L. Ch. 385-2006		7,000,000
School renovations	P.L. Ch. 142/7962 & 142/2677	_	40,000,000
		\$_	64,592,677

^{*} The City does not plan to issue the \$1,900,000 authority for incinerator purposes

G. Capital Lease Commitments

The City's capital lease program consists of two leases for the purchase of various vehicles and equipment valued at \$8,742,878. Depreciation expense for the year on those assets was \$1,044,941. The City may purchase leased vehicles and equipment as set forth in the lease agreements. Leases are renewed annually based on the City's appropriation of funds sufficient to pay the obligations under the lease agreements.

Obligations of Governmental Activities under capital leases at June 30, 2018 were as follows:

Fiscal Year Ending June 30,	_ l 	Lease Payment Required
2019	\$	1,544,186
2020		1,122,257
2021		766,625
2022		429,209
2023		366,593
2024-2026		885,186
Future minimum rental commitments		5,114,056
Interest portion of payments		320,457
Principal Portion of Payments	\$	4,793,599

10. INTERFUND RECEIVABLES AND PAYABLES

Interfund balances represent short-term advances from one fund (primarily the General Fund) to another fund. The advances may represent balances resulting from operating advances or reimbursement for expenditures paid by one fund or may simply be the result of pooling financial resources to maximize income. The composition of interfund balances at June 30, 2018 is as follows:

	Due From Other Funds			Due To Other Funds
General Fund	\$_	25,093,996	\$_	20,402,115

Total	\$_	147,825,139	\$_	147,825,139

13. DEFINED BENEFIT PENSION PLANS

A. City Employees' Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting

The City Employees' Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City Employees' Pension Plan and additions to and deductions from the Plan's net position have been determined on the same basis as they are reported by the Plan. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and when the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The City Employees' Pension Plan covers all City employees not covered by other plans. Nonelected employees are eligible to participate after six months of employment. Elected officials are eligible on the date they assume their elected position. The City Employees' Pension Plan is a single employer defined benefit pension plan that was established in 1965. The Municipal Retirement Board is responsible for the administration of the plan. The Board is comprised of (11) members consisting of the City's Finance

Director, Personnel Director, Municipal Union President, Chairperson of the City Finance Committee, (1) Union Employee, (1) Non-Union Employee, (1) Municipal Retiree and (4) Members of the Public. The pension plan is reported as a Pension Trust Fund in the City's financial statements. The City does not issue a separate publicly available financial report that includes financial statements and required supplementary information (RSI) for the City Employees' Pension Plan.

As of July 1, 2017, employee membership data related to the pension plan was as follows:

Active Plan Members	369
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	379
Inactive Plan Members Entitled to, but not Yet Receiving Benefits	31_
	779

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions

Members in the plan who have attained age 65 and have reached their fifth anniversary of participation may retire. The normal monthly retirement benefit is equal to 2.5% of their final average monthly compensation multiplied by years of creditable service. Final average monthly compensation is onetwelfth of the average of the highest three consecutive years of base compensation. However, no elected member will receive less than one-twelfth of the sum of \$1,500 plus \$200 multiplied by years of creditable service; the sum not to exceed \$5.500. Effective September 1, 1994, the plan compensation is equal to the sum of base compensation and longevity pay. Eligibility for early retirement is after age 55 with at least 10 years of creditable service or any member whose age plus service totals 80 or more. Effective for new hires after July 1, 2012, the eligibility requirement changes to the attainment of age 59 with 25 years of service, or age 65 if vested. Additionally, the monthly retirement benefit decreases to 2% of final average monthly compensation multiplied by years of creditable service. Benefits will be calculated based upon the average of the last three years of service. Effective September 1, 1994, an elected official is eligible upon the attainment of age 55 with at least six years of service. The retirement benefit for early retirement is determined under the normal retirement formula above reduced for commencement prior to age 65. The reduction is equal to 1/2% per month for the first sixty months prior to age 65 plus 1/3% per month in excess of sixty. If the sum of the retired member's years of age plus service is at least equal to 80, there is no reduction for early commencement. The provision for late retirement is continued employment beyond normal retirement. The retirement benefit for late retirement is the same as the normal retirement benefit formula determined as of the member's actual retirement date.

Upon termination of employment, a nonelected member is eligible for a benefit deferred to retirement age after 10 years of creditable service. An elected member is eligible after six years of creditable service. The benefit is the same as early retirement. For all members except elected officials, the benefit amount determined under the normal retirement formula is increased by 3% per year between termination and retirement. In lieu of receiving retirement benefits, a member may receive a lump-sum payment of his or her accumulated contributions with interest at any time prior to the commencement of retirement benefits.

A nonelected member who leaves employment prior to completing 10 years of creditable service or an elected member who leaves prior to completing 6 years of creditable service will receive a lump-sum payment of his or her accumulated contributions with interest.

A nonelected member who has completed 10 years of creditable service or an elected member who has completed 6 years of creditable service, and who is totally disabled as determined by the City's medical board is eligible for disability retirement. The disability retirement benefit formula is the same as normal retirement but reduced by worker's compensation payments.

Any married nonelected member with 10 years creditable service or any married elected member with 6 years of creditable service who dies while still employed after age 50 is eligible for pre-retirement death benefits. The benefit is the same as vested deferred or early retirement with reduction for each month by which benefit commencement precedes age 65 and further reduced to reflect the optional form of payment which provides payments at the same rate to the surviving spouse. A member's surviving spouse may elect to receive a lump-sum payment equal to the member's accumulated contributions with interest in lieu of the annuity described above.

Any terminated member with a deferred vested benefit or an active member not eligible for the surviving spouse's annuity described above is eligible for death benefits before retirement benefits equal to one lump-sum pay of the member's accumulated contributions with interest.

Effective September 1, 1994, a member may, in lieu of receiving one half of his or her accumulated sick pay in cash at termination or retirement, receive a pension service credit for unused sick pay (6-month maximum).

Contributions

The City's annual contribution to the plan is based upon an actuarially determined amount recommended by an independent actuary. During fiscal 2018, this contribution amounted to 26.2% of covered payroll. In addition, the nonelected plan members contribute 8.5% of their annual base compensation and longevity compensation. Elected plan members contribute 8.5% of their annual base compensation plus \$20.00 per month. Administrative costs are included in the actuarial valuation as part of the normal cost and financed through contributions.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by a majority vote of the Municipal Pension Board members. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans, and it seeks to be fully invested using cash equivalents for liquidity purposes.

The long-term rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of future real rates of return are developed for each major asset class. These ranges are combined to produce the expected long-term rate of return by weighing the expected future rates of return by the target asset allocation percentage plus expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed income core	37.50%	3.90%
Large cap domestic equity	30.00%	7.80%
Small cap domestic equity	12.50%	8.25%
International equity developed	13.75%	7.80%
International equity emerging	5.00%	8.75%
Commodities	1.25%	4.65%

Rate of Return

For the year ended June 30, 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 9.08%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The City's net pension liability was measured as of June 30, 2018. The components of the net pension liability of the City at June 30, 2018 were as follows:

Total pension liability	\$	176,855,366
Plan fiduciary net position	_	134,055,398
	_	_
City's Net Position Liability	\$_	42,799,968
	_	
Plan fiduciary net position as a percentage		
of the total pension liability		75.80%

Actuarial Assumptions

The following actuarial assumptions were used in the actuarial valuation dated July 1, 2017 and were rolled forward to the measurement date of June 30, 2018.

Actuarial cost method Inflation	Entry Age Normal Actuarial Cost Method 2.25%
milation	2.25%
Salary increases	3.00% to 7.00% including inflation
Investment rate of return	6.90%
Mortality rates	Based upon the RP-2000 Healthy Annuitant Mortality
	Tables for Males and Females, as appropriate, projected
	with Scale AA from 2000

Measurement of the Net Pension Liability

Discount Rate

The net pension liability is measured as the total pension liability, less the amount of the pension plan' fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

	_	Increase (Decrease)				
	_	Total Pension Liability (a)	Plan Fiduciary Net Position (b)		Net Pension Liability (a)-(b)	
Balances as of July 1, 2017	\$_	170,101,420 \$	124,934,249	\$_	45,167,171	
Changes for the year:						
Service cost		3,470,808			3,470,808	
Interest		11,508,757			11,508,757	
Differences between expected and actual experience		1,973,093			1,973,093	
Contributions - employer			6,194,245		(6,194,245)	
Contributions - employee			1,888,875		(1,888,875)	
Net investment income			11,247,563		(11,247,563)	
Benefit payments, including refunds of contributions		(10,198,712)	(10,198,712)		-	
Administrative expense			(21,413)		21,413	
Other charges			10,591		(10,591)	
Net changes	_	6,753,946	9,121,149	_	(2,367,203)	
Balances as of June 30, 2018	\$_	176,855,366 \$	134,055,398	\$_	42,799,968	

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Below is a table providing the sensitivity of the net pension liability to changes in the discount rate. In particular, the table presents the plan's net pension liability if it was calculated using a single discount rate that is 1 percentage point lower (5.90%) or 1 percentage point higher (7.90%) than the single discount rate:

	Current						
	_	1% Decrease (5.90%)		Discount Rate (6.90%)		1% Increase (7.90%)	
City Employees' Pension Plan	\$	63,241,170	\$	42,799,968	\$	25,608,671	

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2018, the City Employee Pension Plan recognized pension expense of \$8,662,109. As of June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	-	Deferred Outflows of Resources	 Deferred Inflows of Resources
Difference between expected and actual experience Changes of assumptions Net difference between projected and actual	\$	1,670,663 2,831,772	\$ 175,674
earning on pension plan investments	-	5,267,498	 6,098,033
lotal	\$_	9,769,933	\$ 6,273,707

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Year Ended June 30,	 Net Deferred Outflows (Inflows) Resources
2019	\$ 3,924,546
2020 2021 2022	1,427,740 (1,373,868) (482,192)
	\$ 3,496,226

B. Police I and Fire Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting

The Police I and Fire Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Police I and Fire Pension Plan and additions to and deductions from the Plan's net position have been determined on the same basis as they are reported by the Plan. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and when the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The City of Warwick's Police I and Fire Pension Plan covers all City Police Officers that were appointed before February 1, 1971, and all permanent members of the City's Fire Department appointed before May 29, 1992. The Police I and Fire Pension Plan is a single-employer defined benefit pension plan that was established in 1953. There is no separate financial report issued for the pension plan. The pension plan is reported as a Pension Trust Fund in the City's financial statements. The City does not issue a separate publicly available financial report that includes financial statements and required supplementary information (RSI) for the Police I and Fire Pension Plan.

As of July 1, 2017, employee membership date related to the pension plan was as follows:

Active Plan Members	24
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	406
Inactive Plan Members Entitled to, but not Yet Receiving Benefits	
	430

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions - Police Officers

Benefits provided to remaining active police officers are in accordance with the City's Code of Ordinances. Retirement, death, and disability benefits payable to retired members and beneficiaries are indexed in accordance with the base salary increases provided to active members of the police force.

Benefit Provisions - Firefighters

Participating firefighters in the plan who have completed 20 years of service may retire. The normal annual retirement benefit is equal to 50% of highest annual salary plus 1% of salary for each year of service in excess of 20 years (maximum 10). For pension purposes, annual salary includes regular, longevity and holiday pay.

Any firefighter retiring after July 23, 1996 may also irrevocably elect to have his or her pension calculated under the City's Fire II Pension Plan. The Fire II benefit formula is 50% of the final year's compensation. Plus 2% for each year of service from 20 to 25 years, plus 3% for each year of service from 25 to 30 years with a fixed compounded cost of living adjustment.

A participant who is unable to perform active duty as a firefighter, which the Board of Public Safety finds to be permanently incapacitating, is eligible to receive disability retirement benefits. The service-related disability retirement benefit for disabilities involving heart, lung, cancer or other social security disabilities is 66 2/3% of the highest annual salary, reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of annual salary. The other service related and nonservice related benefit is 50% of annual salary.

A member is eligible for a return of contributions without interest for terminations prior to the completion of 10 years of service. For termination after the completion of 10 years of service, but prior to eligibility for retirement, the employee is eligible for a deferred benefit equal to 2 1/2% of annual salary at termination, multiplied by the number of full years of service, payable on the 20th anniversary of employment.

The Plan provides death benefits to a participant's spouse and dependents if the participant dies while actively employed. Per City Ordinance, the service-related death benefit is 50% of the deceased member's average salary, payable to the surviving spouse until death or earlier remarriage. However, it must be noted that Rhode Island State Law, Chapter 45-21-4, raises the percentage to 67.5%. For nonservice-related death, the annual benefit is 30% of the deceased member's highest annual salary, payable to the surviving spouse until death or remarriage. The benefit for surviving children is 10% of the deceased member's highest annual salary, payable to each surviving child until age 18 (or for life if such child becomes permanently disabled prior to the member's death). The maximum family death benefit for service-related death is 75% of the deceased member's highest annual salary and for nonservice-related deaths 50% of the highest annual salary.

A lump-sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

Benefits provided to remaining active police officers and firefighters are in accordance with the proposed restatement of Section 15-19 of the City's Code of Ordinances. Retirement, death and disability benefits payable to retired members and beneficiaries are indexed in accordance with the base salary increases provided to active members of the police force.

Funding Policy

Active plan members contribute 7% of their covered earnings (regular, holiday and longevity). In addition, the City is required to contribute an actuarially determined amount each year, calculated in accordance with its pension ordinances. The statutory contribution level includes a 40-year amortization of the unfunded actuarial liability as a level percentage of payroll. During fiscal 2018, this contribution amounted to \$17,934,399. Administrative costs are netted against investment return in the actuarial valuation.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Plan's fiduciary custodian, the City Finance Director. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans, and it seeks to be fully invested using cash equivalents for liquidity purposes.

The long-term rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of future real rates of return are developed for each major asset class. These ranges are combined to produce the expected long-term rate of return by weighing the expected future rates of return by the target asset allocation percentage plus expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2018 are summarized in the following table:

Asset Class	Target Allocation	
Fixed income core	37.50%	3.90%
Large cap domestic equity	30.00%	7.80%
Small cap domestic equity	12.50%	8.25%
International equity developed	13.75%	7.80%
International equity emerging	5.00%	8.75%
Commodities	1.25%	4.65%

Rate of Return

For the year ended June 30, 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 8.47%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The components of the net pension liability of the City at June 30, 2018 were as follows:

Total pension liability	\$	296,861,721
Plan fiduciary net position		73,738,390
City's Net Position Liability	\$ _	223,123,331
Plan fiduciary net position as a percentage		04.040/
of the total pension liability		24 84%

Actuarial Assumptions

The following actuarial assumptions were used in the July 1, 2017 valuation and rolled forward to the measurement date of June 30, 2018.

Actuarial cost method Inflation	Entry Age Normal Actuarial Cost Method 2.25%
Salary increases	3.50% to 13.50% including inflation
Investment rate of return	6.90%
Mortality rates	Based upon the RP-2000 Healthy Annuitant Mortality
•	Tables for Males and Females, as appropriate, projected
	with Scale AA from 2000

Measurement of the Net Pension Liability

Discount Rate

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

	Increase (Decrease)				
		Total Pension Liability (a)	Plan Fiduciary Net Position (b)	_	Net Pension Liability (a)-(b)
Balances as of July 1, 2017	\$_	294,066,490 \$	71,756,352	\$_	222,310,138
Changes for the year:					
Service cost		653,640			653,640
Interest		19,565,475			19,565,475
Differences between expected and actual experience		4,604,032			4,604,032
Contributions - employer			17,934,399		(17,934,399)
Contributions - employee			175,440		(175,440)
Net investment income			5,911,507		(5,911,507)
Benefit payments, including refunds of contributions		(22,027,916)	(22,027,916)		-
Administrative expense			(22,453)		22,453
Other charges			11,061		(11,061)
Net changes	_	2,795,231	1,982,038	-	813,193
Balances as of June 30, 2018	\$_	296,861,721 \$	73,738,390	\$	223,123,331

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Below is a table providing the sensitivity of the net pension liability to changes in the discount rate. In particular, the table presents the plan's net pension liability if it was calculated using a single discount rate that is 1 percentage point lower (5.90%) or 1 percentage point higher (7.90%) than the single discount rate:

				Current			
	_	1% Decrease (5.90%)	_	Discount Rate (6.90%)		1% Increase (7.90%)	
Police I & Fire Pension Plan	\$	254,820,139	\$	223,123,331	\$	196,904,858	

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2018, the Police I and Fire Pension Plan recognized pension expense of \$20,677,257. As of June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earning on pension plan investments	\$3,210,269\$	3,693,753
Total	\$ 3,210,269 \$	3,693,753

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Year Ended June 30,		Net Deferred Outflows (Inflows) Resources
2019 2020 2021 2022 2023 Thereafter	\$	836,037 57,544 (1,158,341) (218,724)
	\$_	(483,484)

C. Police Pension II Plan

Summary of Significant Accounting Policies

Basis of Accounting

The Police II Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Police II Pension Plan and additions to and deductions from the Plan's net position have been determined on the same basis as they are reported by the Plan. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and when the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The City of Warwick, Rhode Island's Police II Pension Plan covers all City Police Officers that were appointed after February 1, 1971. The Police Pension II Plan is a single-employer defined benefit pension plan that was established in 1971. There is no separate financial report issued for the pension plan. The pension plan is reported as a Pension Trust Fund in the City's financial statements.

The City does not issue a separate publicly available financial report that includes financial statements and required supplementary information (RSI) for the Police II Pension Plan.

As of July 1, 2017 employee membership data related to the pension plan was as follows:

Active Plan Members	158
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	184
Inactive Plan Members Entitled to, but not Yet Receiving Benefits	4
	346

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions

Members in the plan who have completed 20 years of service may retire. The normal annual retirement benefit is equal to 50% of annual salary at retirement plus incremental increases of 2% per year between the 20th and 25th years, and annual increases of 3% between the 26th and 30th years. For pension purposes, annual salary includes regular, longevity and holiday pay.

Effective for new hires after July 1, 2012, the eligibility requirement increases to 25 years of service. Additionally, the retirement benefit will now be calculated at a rate of 50% of the average salary from the last three years of service, plus an additional 2% for every year of service from year 10 to retirement. The maximum pension benefit decreases from 75% after 30 years to 70% after 30 years.

A member who is unable to perform active as a result of disability, which the Board of Public Safety finds to be permanently incapacitating, is eligible to receive disability retirement benefits. The service-related disability retirement benefit is 66 2/3% of the highest annual salary, reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of annual salary. The nonservice-related benefit is 50% of annual salary.

A member who leaves employment prior to completing ten years of service will receive a lump-sum payment of accumulated contributions without interest. For termination after the completion of 10 years of service, but prior to eligibility for retirement, the employee is eligible for a deferred benefit equal to 2 1/2% of annual salary at termination, multiplied by the number of full years of service, payable on the 20th anniversary of employment.

The Plan provides death benefits to a participant's spouse and dependents if the participant dies while actively employed. Per City Ordinance, the service related death benefit is 50% of the deceased member's average salary, payable to the surviving spouse until death or earlier remarriage. However, it must be noted that Rhode Island State Law, Chapter 45-21-4, raises the percentage to 67.5%. For nonservice-related death, the annual benefit is 30% of the deceased member's highest annual salary.

payable to the surviving spouse until death or remarriage. The benefit for surviving children is 10% of the deceased member's highest annual salary, payable to each surviving child until age 18 (or for life if such child becomes permanently disabled prior to the member's death). The maximum family death benefit for service-related death is 75% of the deceased member's highest annual salary and for nonservice-related deaths 50% of the highest annual salary.

A lump-sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

Funding Policy

Active plan members contribute a percentage of their covered earnings (regular, holiday and longevity) equal to 1/3 of the actuarially determined contribution rate. The City is required to contribute 2/3 of the actuarially determined contribution rate. For fiscal year 2018, employees were required to contribute 15.12% and the City was required to contribute 30.24% of covered earnings. The statutory contribution level includes a 20, 25 and 30-year amortization of the unfunded actuarial liability as a level percentage of payroll. Administrative costs are netted against investment return in the actuarial valuation.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Plan's fiduciary custodian, the City Finance Director. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans and it seeks to be fully invested using cash equivalents for liquidity purposes.

The long-term rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of future real rates of return are developed for each major asset class. These ranges are combined to produce the expected long-term rate of return by weighing the expected future rates of return by the target asset allocation percentage plus expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed income core	37.50%	3.90%
Large cap domestic equity	30.00%	7.80%
Small cap domestic equity	12.50%	8.25%
International equity developed	13.75%	7.80%
International equity emerging	5.00%	8.75%
Commodities	1.25%	4.65%

Rate of Return

For the year ended June 30, 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 8.55%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The components of the net pension liability of the City at June 30, 2018 were as follows:

Total pension liability	\$	243,261,152
Plan fiduciary net position		206,142,558
	_	

City's Net Position Liability \$ 37,118,594

Plan fiduciary net position as a percentage

of the total pension liability 84.74%

Actuarial Assumptions

The following actuarial assumptions, used in the valuation dated July 1, 2017, and rolled forward to the measurement date of June 30, 2018.

Actuarial cost method Entry Age Normal Actuarial Cost Method

Inflation 2.25%

Salary increases 3.50% to 13.50% including inflation

Investment rate of return 6.90%

Mortality rates Based upon the RP-2000 Healthy Annuitant Mortality

Tables for Males and Females, as appropriate, projected

with Scale AA from 2000

Measurement of the Net Pension Liability

Discount Rate

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

		Increase (Decrease)

Total	\$	14,804,761	\$ 10,661,845

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Year Ended June 30,	· -	Net Deferred Outflows (Inflows) Resources
2019 2020 2021 2022 Thereafter	\$	5,145,004 3,197,397 (3,231,178) (968,307)
	\$	4.142.916

D. Fire II Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting

The Fire II Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Fire II Pension Plan and additions to and deductions from the Plan's net position have been determined on the same basis as they are reported by the Plan. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and when the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The City of Warwick's Fire Pension II Plan covers all City firefighters who were appointed after May 29, 1992. The Fire Pension II Plan is a single employer defined benefit pension plan that was established in 1992. The pension plan is reported as a Pension Trust Fund in the City's financial statements. The City does not issue a separate, publicly available report that includes financial statements and required supplementary information (RSI) for the Fire II Pension Plan.

As of July 1, 2017, employee membership data related to the pension plan was as follows:

Active Plan Members	195
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	17
Inactive Plan Members Entitled to, but not Yet Receiving Benefits	
	212

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions

A member who has completed 20 years of service may retire. Such member shall receive an annual benefit equal to 50% of their last year's salary, plus 2% of their average salary for each of service from 20-25, plus 3% for each year of service from 25-30. For pension purposes, annual salary includes regular, holiday and longevity pay.

Effective for new hires after July 1, 2012, the eligibility requirement increases to 25 years of service. Additionally, the retirement benefit will now be calculated at a rate of 50% of the average salary from the last three years of service, plus an additional 2% for every year of service from year 10 to retirement. The maximum pension benefit decreases from 75% after 30 years to 70% after 30 years. Currently, this new benefit provision is being contested by the Local 2748 International Association of Firefighters AFL-CIO.

A member who is unable to perform active duty as a result of disability, which the Board of Public Safety finds to be permanently incapacitating, is eligible to receive disability retirement benefits. The annual benefit for a service-related disability involving any heart, lung, cancer or other social security disability is 66-2/3% of the member's average salary, reduced for each dollar of earned income in excess of the salary the member would earn as an active employee, to a minimum of 50% of salary. The benefit for other service-related and nonservice-related disabilities is 50% of the member's average salary.

The Plan provides death benefits to a participant's spouse and dependents if the participant dies while actively employed. Per City Ordinance, the service-related death benefit is 50% of the deceased member's average salary, payable to the surviving spouse until death or earlier remarriage. However, it must be noted that Rhode Island State Law, Chapter 45-21-4, raises the percentage to 67.5%. For nonservice related death, the annual benefit is 30% of the deceased member's highest annual salary, payable to the surviving spouse until death or remarriage. The benefit for surviving children is 10% of the deceased member's highest annual salary, payable to each surviving child until age 18 (or for life if such child becomes permanently disabled prior to the member's death). The maximum family death benefit for service-related death is 75% of the deceased member's highest annual salary and for nonservice related deaths 50% of the highest annual salary.

A lump-sum payment equal to the member's accumulated contributions without interest shall be paid to the estate of any active member who dies with no surviving spouse or children.

Any member who terminates employment with 10 years or more of creditable service, but less than 20 years of creditable service, shall receive an annual benefit commencing at normal retirement age equal to 2.5% of average salary multiplied by full years of service at termination.

Any member who terminates employment prior to the completion of ten years of creditable service will receive a lump-sum payment of his or her accumulated contributions without interest.

Funding Policy

Active plan members contribute a percentage of their covered earnings (regular, holiday and longevity) equal to 1/3 of the actuarially determined contribution rate. The City is required to contribute 2/3 of the actuarially determined contribution rate. Administrative costs are netted against investment return in the actuarial valuation. For fiscal year 2017, employees were required to contribute 10.72% and the City was required to contribute 21.43% of covered earnings.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Plan's fiduciary custodian, the City Treasurer. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans, and it seeks to be fully invested using cash equivalents for liquidity purposes.

The long-term rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of future rates of return are developed for each major asset class. These ranges are combined to produce the expected long-term rate of return by weighing the expected future rates of return by the target asset allocation percentage plus expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed income core	37.50%	3.90%
Large cap domestic equity	30.00%	7.80%
Small cap domestic equity	12.50%	8.25%
International equity developed	13.75%	7.80%
International equity emerging	5.00%	8.75%
Commodities	1.25%	4.65%

Rate of Return

For the year ended June 30, 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 6.80%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The components of the net pension liability of the City at June 30, 2018 were as follows:

Total pension liability	\$	85,565,712
Plan fiduciary net position		73,583,027
City's Net Position Liability	\$_	11,982,685
Plan fiduciary net position as a percentage		
of the total pension liability		86.00%

Actuarial Assumptions

The following actuarial assumptions were used in the actuarial valuation dated July 1, 2017 and rolled forward to the measurement date of June 30, 2018.

Actuarial cost method	Entry Age Normal Actuarial Cost Method
Inflation	2.25%
Salary increases	3.50% to 13.50% including inflation
Investment rate of return	6.90%
Mortality rates	Based upon the RP-2000 Healthy Annuitant Mortality
	Tables for Males and Females, as appropriate, projected
	with Scale AA from 2000

Measurement of the Net Pension Liability

Discount Rate

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 6.90% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.90%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

		Increase (Decrease)				
	_	Total Pension Liability (a)		Plan Fiduciary Net Position (b)	_	Net Pension Liability (a)-(b)

E. Warwick Public School Employees' Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting

The Warwick Public School Employees' Pension Trust Fund's financial statements are prepared using the accrual basis of accounting. For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Warwick Public School Employees' Pension Plan and additions to and deductions from the Plan's net position have been determined on the same basis as they are reported by the Plan. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

The Warwick Public School Employees' Pension Plan, a single-employer defined benefit public employee pension plan. There is no separate financial report issued for this plan, however it is audited as part of the City of Warwick's Pension Trust Funds and is reported within the City's Annual Financial Report. All eligible Warwick Public School employees other than teachers are eligible to participate on the first of the month after completing three months of service. A person is eligible if they are (a) employed 20 hours or more per week and covered under the collective bargaining agreement, or (b) employed 20 hours or more per week in a noncertified management position, or (c) an elected School Committee member. There are two committees that oversee the administration of this plan. The Executive Administration Board is comprised of the School's Chief Budget Officer, the Director of Human Resources and the Warwick Independent Employees' Union President. The Executive Administration Board delegates investment responsibilities to the Pension Investment Administration Committee, which is comprised of (2) Warwick Public School Administrative Employees, the Chief Budget Officer, the Controller, and (2) Warwick Independent Employees' Union Representatives, who are appointed by the Union leadership.

As of July 1, 2017, employee membership data related to the pension plan was as follows:

Active Plan Members	336
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	146
Inactive Plan Members Entitled to, But not Yet Receiving Benefits	25
	507

Benefit Provisions

Participants are eligible for normal retirement at the later of age 62 or 10 years of plan participation or at any age upon completion of 32 years of service with 10 years of plan participation. The normal retirement benefit is 1.67% of average monthly earnings times years of participation, plus .33% times the average monthly earnings times years of participation exceeding 20 years. The normal form of benefit is a life annuity. Average monthly earnings are the monthly average of total compensation for the 3 consecutive years of highest compensation over the last 10 years.

The yearly annuity amount for a School Committee member who becomes a retired member is \$1,000 plus 4.8% times the salary amount for each plan year in which one made mandatory employee contributions.

The plan also provides death and disability benefits.

The following table summarizes the plan's requirements and benefits:

Plan Provisions

Entry Dates

Effective Date:

Plan Year Beginning:

July 1, 1965

July 1, 2018

Requirements

Minimum Age: 0

Minimum months of service: 3

An elected school committee member or a member covered by

Eligible Class the collective bargaining agreement.

1st day of the month coinciding with or next following the date

the plan requirements are met.

Employee Contributions 5% of earnings

Normal Retirement Date First day of the month coinciding with or next following

attainment of age 62, or if later, the 10th anniversary of plan entry, or 32 years of service with 10 years of plan participation.

Normal Retirement Benefit 1.67% of the member's average monthly earnings multiplied by

years of participation, plus .33% times average monthly earnings times years of participation greater than 20.

Average Monthly Earnings Monthly average of total compensation for the 3 consecutive

years of highest compensation of the previous 10 years.

Maximum Annual Benefit \$215,000 as adjusted per IRC Sec 415 for retirement age other

than social security retirement age and annuity form.

Normal Form of Benefit Life Annuity

Accrued Benefit Normal Retirement Benefit based on earnings and participation

to date.

Early Retirement Benefit Minimum Age: 52

Minimum Service: 10 years

Benefit Amount: Accrued benefit, reduced by 7% for each year

by which early retirement precedes normal retirement.

Pre-Retirement Death Benefit Member contributions with interest, plus a \$5,000 lump-sum

benefit.

Disability Benefit Determined in the same manner as the normal retirement

benefit.

Vest Termination Benefit Upon termination after 10 years of service, 100% of the

accrued benefit, deferred until the normal retirement date. A school committee member is vested after six years of plan

participation.

Contributions

Plan members contribute 5% of earnings during the year. The School Department contributes based upon an annual actuarial valuation. During fiscal 2018, the School Department's contribution totaled \$1,152,310. Administrative costs are included in the actuarial valuation as part of the normal cost and financed through contributions.

Investments

Investment information has been provided by USI Advisors.

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Warwick School Committee by a majority vote of its members. It is the policy of the Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

This is an ongoing plan with a perpetual time horizon. For this reason, long-term capital market assumptions (20+ years) are applicable to approximate future real rate of return expectations. A modified building blocks methodology was used because being able to identify historical return premiums of asset classes in the context of varying market environments provides a reasonable basis to estimate the performance of asset classes going forward.

Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
NO Facility Laura Com	05.00%	0.500/
US Equity-Large Cap	25.00%	6.52%
US Equity-Small/Mid Cap	15.00%	7.70%
Non-US Equity - Developed	10.00%	6.81%
Non-US Equity - Emerging	5.00%	9.17%
US Corporate Bonds - Core	15.00%	2.10%
US Corporate Bonds - High Yield	5.00%	4.26%
Non-US Debt - Emerging	4.00%	4.41%
US Treasuries (cash equivalents)	12.00%	0.79%
TIPS (Inflation Protected)	4.00%	1.74%
Real Estate	5.00%	5.25%

Rate of Return

For the year ended June 30, 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 9.74%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The City's net pension liability was measured as of June 30, 2018. The components of the net pension liability of the City at June 30, 2018 were as follows:

Total pension liability \$ 57,021,715
Plan fiduciary net position \$ 53,002,896

City's Net Position Liability \$ 4,018,819

Plan fiduciary net position as a percentage

of the total pension liability 92.95%

Actuarial Assumptions

The following actuarial assumptions were used in the June 30, 2018 actuarial valuation:

Actuarial cost method Individual Entry Age Normal Actuarial Cost Method

Amortization method Level Amortization

Salary increases 3.00% Investment rate of return 7.00%

Mortality rates Prescribed IRS Static Mortality Tables for the Year of the

Valuation

Measurement of the Net Pension Liability

Discount Rate

The net pension liability is measured as the total pension liability, less the amount of the pension plan's fiduciary net position. In actuarial terms, this will be the accrued liability less the market value of assets (not the smoothed actuarial value of assets that is often encountered in actuarial valuations performed to determine the employer's contribution requirement).

A single discount rate of 7.0% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.0%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Below is a table providing the sensitivity of the net pension liability to changes in the discount rate. In particular, the table presents the plan's net pension liability (asset) if it was calculated using a single discount rate that is 1 percentage point lower (6.0%) or 1 percentage point higher (8.0%) than the single discount rate:

	Current						
	1% Decrease (6.0%)			Discount Rate (7.0%)		1% Increase (8.0%)	
Warwick School Employees	\$	10,529,138	\$	4,018,819	\$	(1,540,012)	

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2018, the Warwick Public School Employees Pension Plan recognized pension expense of \$1,403,504. As of June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	Deferred Outflows of Resources	· <u>-</u>	Deferred Inflows of Resources
Difference between expected and actual experience Changes of assumptions Net difference between projected and actual	\$	2,424,373 182,638	\$	188,129
earning on pension plan investments	_	996,504	_	2,563,530
Total	\$_	3,603,515	\$	2,751,659

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Year Ended June 30,	Net Deferred Outflows (Inflows) Resources
2019 2020 2021 2022 Thereafter	\$ 441,647 209,577 (190,642) 209,648
	\$ 851,856

F. Warwick Public School Teachers' Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Employees' Retirement System Plan (ERS) and the additions to and deductions from ERS' fiduciary net position have been determined on the same basis as they are reported by ERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Plan Description

Certain employees of the Warwick Public School system participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org.

Benefit Provisions

The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than five years of service as of July 1, 2012. Members are vested after five years of service.

The plan provides for survivor's benefits for service-connected death and certain lump-sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans administered by ERSRI reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals commencing with the plan year ending June 30, 2016.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Funding Policy

The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2018, Warwick Public School System Teachers were required to contribute 3.75% of their annual covered salary, except for teachers with twenty or more years of service as of June 30, 2012 who must contribute 11% of their annual covered salary. The State and Warwick Public Schools are required to contribute at an actuarially determined rate, 40% of which is to be paid by the State and the remaining 60% is to be paid by Warwick Public Schools; the rates were 9.95% and 13.18% of annual covered payroll for the fiscal year ended June 30, 2018 for the State and Warwick Public Schools, respectively. Warwick Public Schools contributed \$10,176,528, \$10,619,358 and \$10,888,514 for the fiscal years ended June 30, 2018, 2017 and 2016, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2018, Warwick Public Schools reported a liability of \$140,460,773 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by Warwick Public Schools as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with Warwick Public Schools were as follows:

Warwick Public School's proportionate share of the Net Pension Liability	\$ 134,499,571
State of Rhode Island's proportionate share of the Net Pension Liability	 101,649,361
Total Net Pension Liability	\$ 236,148,932

The net pension liability was measured as of June 30, 2016, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015 rolled forward to June 30, 2016. Warwick Public School's proportion of the net pension liability was based on a projection of Warwick Public School's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2017, Warwick Public School's proportion was 4.26%.

For the year ended June 30, 2018, Warwick Public Schools recognized gross pension expense of \$17,047,415 and revenue of \$7,913,091 for support provided by the State. At June 30, 2018, Warwick Public Schools reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	· <u>-</u>	Deferred Inflows of Resources
Difference between expected and actual experience	\$	\$	3,188,667
Changes of assumptions	11,746,600		2,119,503
Net difference between projected and actual			
earning on pension plan investments	10,406,876		7,009,327
Changes in proportion and differences			
between employer contributions and			
proportionate share of contributions			15,896,049
Contributions subsequent to the measurement date	10,176,528	_	
		_	
Total	\$ 32,330,004	\$_	28,213,546

\$10,176,528 reported as deferred outflows of resources related to pensions resulting from Warwick Public School's contributions in fiscal year 2018 subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,		Net Deferred Outflows (Inflows) Resources
2019	\$	(1,458,810)
2020		780,434
2021		(876,811)
2022		(3,240,939)
2023		(1,180,798)
Thereafter	_	(83,146)
	\$_	(6,060,070)

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.75%

Salary increases 3.50% to 13.50%

Investment rate of return 7.50%

Mortality - male and female teachers: 97% and 92%, respectively of rates in a GRS table based on male and female teacher experience, projected with Scale AA from 2000.

The actuarial assumptions used in the June 30, 2015 valuation rolled forward to June 30, 2016 and the calculation of the total pension liability at June 30, 2016 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

Investments

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 23 sources. The June 30, 2015 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Global Equity:	38.00%	
U.S. Equity		6.98%
International Developed		7.26%
International Emerging Markets		9.57%
Equity Hedge Funds	8.00%	4.10%
Private Equity	7.00%	10.15%
Core Fixed Income	15.00%	2.37%
Absolute Return Hedge Funds	7.00%	4.10%
Infrastructure	3.00%	5.58%
Real Estate	8.00%	5.33%
Other Real Return Assets:	11.00%	
Master Limited Partnerships		4.97%
Credit		4.97%
Inflation Linked Bonds		1.76%
Cash Overlay, Money Market	3.00%	0.82%
	100.00%	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Measurement of the Net Pension Liability

Discount Rate

The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Below is a table providing the sensitivity of the net pension liability to changes in the discount rate. In particular, the table presents the plan's net pension liability if it was calculated using a single discount rate that is 1 percentage point lower (6.5%) or 1 percentage point higher (8.5%) than the single discount rate (7.5%):

		Current						
	_	1% Decrease (6.5%)		Discount Rate (7.5%)		1% Increase (8.5%)		
School Teacher's Pension Plan	\$	169,033,825	\$	134,499,571	\$	108,777,047		

Pension plan fiduciary net position - detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

14. DEFINED CONTRIBUTION PLAN

Defined Contribution Plan Description

Employees participating in the defined benefit plan with less than 20 years of service as of June 30, 2012, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute between 1% and 1.5% of annual covered salary depending on the employee's total years of service as of June 30, 2012. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

Warwick Public Schools recognized pension expense of \$497,979 for the fiscal year ended June 30, 2018.

The System issues a publicly available financial report that includes financial statements and required supplementary information for plans administered by the system. The report may be obtained at http://www.ersri.org.

15. OTHER POST-EMPLOYMENT BENEFITS

A. Other Post-Employment Benefits - City

Plan Description

The City administers a single-employer defined benefit healthcare plan. The plan provides medical/drug and dental (police officers only) benefits for eligible retirees and their dependents through the City group health and dental insurance plans, which cover both active and retired members. Benefit provisions are established and amended by union contract, through negotiations between the City and respective unions. The plan does not issue a publicly available financial report.

Funding Policy

Contribution requirements are negotiated between the City and the respective unions. The City is required to contribute the cost of medical/drug and dental benefits, less the amount of any applicable copayments in effect at the time or retirement. For the year ended June 30, 2018, the plan operated on a pay-as-you-go basis and no provision has been made to fund future benefits to be provided to plan members. For the fiscal year ended June 30, 2018, the City contributed \$11,482,709 to the plan.

At June 30, 2018, membership consisted of:

	City, Police, Fire
	744
Active employees	711
Retired	938
Total	1,649_

Total OPEB Liability

The City's total OPEB liability of \$352,383,048 was measured as of June 30, 2018 and was determined by an actuarial valuation as of July 1, 2017.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	3.00%
Salary increases	3.00%
Discount rate	2.98%

Healthcare cost trend rates 8.0% for 2018, decreasing 0.5% per year to

an ultimate rate of 5.0% for 2024 and later

vears

Mortality RP-2014 mortality table, MP-2016 projection

The discount rate was based on the S & P Municipal Bond 20-year High Grade Rate Index as of June 30, 2018.

Changes in Total OPEB Liability

		Total OPEB Liability
Balances as of July 1, 2017	\$	356,880,279
Changes for the year: Service cost		10,631,235
Interest Difference between expected and actual experience Benefit payments	_	10,463,940 (14,109,697) (11,482,709)
Net change in total OPEB liability	_	(4,497,231)
Balances as of June 30, 2018	\$_	352,383,048

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.98%) or 1 percentage point higher (3.98%) than the current discount rate:

	_	1% Decrease (1.98%)		Current Discount Rate (2.98%)	 1% Increase (3.98%)		
Total OPEB Liability	\$	382,709,935	\$	352,383,048	\$ 322,056,160		

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower (7.0% decreasing to 4.0%) or 1 percentage point higher (9.0% decreasing to 6.0%) than the current healthcare cost trend rates:

	_	1% Decrease		Current Discount Rate	 1% Increase
Total OPEB Liability	\$	306,180,959	\$	352,383,048	\$ 406,389,475

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the City recognized OPEB expense of \$19,331,463. At June 30, 2018, the City reported deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	 Deferred Inflows of Resources	
Difference between expected and actual experience	\$	\$ 12,345,985	

Amounts reported as deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended June 30,	_	
2019	\$	1,763,712
2020		1,763,712
2021		1,763,712
2022		1,763,712
2023		1,763,712
Thereafter	_	3,527,425
	\$	12,345,985

B. Other Post-Employment Benefits - School

Plan Description

The Warwick School Department administers a single-employer defined benefit healthcare plan. The plan provides medical/drug benefits for eligible retirees and their dependents through the City's group health and dental insurance plans, which cover both active and retired members. Benefit provisions are established and amended by union contract, through negotiations between the City and respective unions. The plan does not issue a publicly available financial report. All benefits terminate at age 65.

Teaching Employees are eligible for benefits after serving the district for 20 to 30 years depending on their date of hire. Other district employees are required to reach age 62 and have 25 years of service. Teaching employees contribute 20 to 60% for coverage depending on their date of hire. Other employees will contribute 20% for coverage. Spouses of teaching employees are not covered by the plan. Spouses of other district employees will contribute 20% for coverage. Surviving beneficiaries continue to receive access to the district's medical coverage through COBRA after the death of the retired employee. Survivors are required to pay the full cost of benefits.

Funding Policy

Contribution requirements are negotiated between the Warwick School Department and the respective unions. The Warwick School Department is required to contribute the cost of medical/drug and dental benefits, less the amount of any applicable co-payments in effect at the time of retirement. For the year ended June 30, 2018, the plan operated on a pay-as-you-go basis, and no provision has been made to fund future benefits to be provided to plan members. For the fiscal year ended June 30, 2018, the Warwick School Department contributed \$812,604 for its employees.

At June 30, 2018, membership consisted of:

	School
Active employees Retired	1,295 62
Total	1,357

Total OPEB Liability

The Warwick School Department's total OPEB liability of \$53,466,538 was measured as of June 30, 2018 and was determined by an actuarial valuation as of July 1, 2017.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	3.00%
Salary increases	3.00%
Discount rate	2.98%
Healthcare cost trend rates	8.0% for 2018, decreasing 0.5% per year to an ultimate rate of 5.0% for 2024 and later
	years

Mortality RP-2014 mortality table, MP-2016 projection

The discount rate was based on the S & P Municipal Bond 20-year High Grade Rate Index as of June 30, 2018.

Total OPEB Liability	\$	59,317,614	\$	53,446,538	\$	47,575,463				

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the Warwick School Department, as well as what the Warwick School Department's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower (7.0% decreasing to 4.0%) or 1 percentage point higher (9.0% decreasing to 6.0%) than the current healthcare cost trend rates:

		Current							
	_	1% Decrease	_	Discount Rate		1% Increase			
	_		_						
Total OPEB Liability	\$	44,581,657	\$	53,446,538	\$	64,154,894			

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the Warwick School Department recognized OPEB expense of \$3,320,217. At June 30, 2018, the Warwick School Department reported deferred inflows of resources related to OPEB from the following sources:

	Deferred		Deferred
	Outflows of		inflows of
	Resources	'	Resources
Difference between expected and actual experience	\$	\$	2,258,597

Amounts reported as deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended June 30,		Net Deferred Outflows (Inflows) Resources
2019	\$	322,657
2020		322,657
2021		322,657
2022		322,657
2023		322,657
Thereafter	_	645,312
	\$	2 258 507

16. SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Litigation

Liabilities for legal cases and other claims against governmental funds are recorded in the governmental funds when the ultimate liability can be estimated and such cases are expected to be settled with available expendable financial resources.

At June 30, 2018, the City had several lawsuits pending. The total maximum damages being sought from the City to these cases are not known. In the opinion of the City officials and the City's legal counsel, the City's ultimate liability with respects to these cases, if any, will be immaterial.

Commitments

The City had several outstanding construction projects as of June 30, 2018. These projects are evidenced by contractual commitments with contractors and include:

Contract		Spent to Date	 Remaining Commitment	Funding Source(s)
Bayside	\$	1,605,758	\$ 764,319	SRF Capital Contracts
NW Gorton's Pond		256,256	111,041	SRF Capital Contracts
Governor Francis III		765,143	4,830,399	SRF Capital Contracts
AWT II Phopserus Removal/Upgrade		15,001,286	303,984	SRF Capital Contracts
East Natick III		39,097	122,043	SRF Capital Contracts
Primary Clarifier		149,715	78,130	SRF Capital Contracts
Fire Code Compliance Program		120,780	17,920	GO Bond
Fire Code Compliance Program	_	221,310	 73,490	GO Bond
	\$_	18,159,345	\$ 6,301,326	

Grants

The City has received federal and state grants for specific purposes that are subject to audit by the grantors or their representatives. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. City officials believe such allowances, if any, would be immaterial.

17. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; and natural disasters. As a result, the City participates in a nonprofit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.), which provides coverage for property/liability claims. Upon joining the Trust, the City signed a participation agreement which outlines the rights and responsibilities of both the Trust and the City. The agreement states that for premiums paid by the City, the Trust will assume financial responsibility for the City's losses up to the maximum amount of insurance purchased, minus the City's deductible amounts. The Trust provides this insurance coverage through a pooled, self-insurance mechanism which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust retains internally for payment from the pooled contributions of its Members.

There have been no significant reductions in insurance coverage during the year ended June 30, 2018 as compared to the previous year. The claims incurred did not exceed insurance coverage this year.

The changes in workers' compensation claims liability are as follows:

	_	Beginning Fiscal Year Liability	_	Current Year Claims and Changes in Estimate	Claim Payments	_	Balance Fiscal Year End
2016-2017	\$	218,950	\$	388,607	\$ 443,556	\$	164,001
2017-2018		164,001		413,764	436,022		141,743

For its employer health insurance coverage, the School Department has chosen to participate in the Health Benefit Project provided by the WB Community Health, an independent, nonprofit organization. The School Department is also self-insured for the dental insurance coverage through WB Community Health. Deposits made to the Collaborative are treated as expenditures when it is probable that a claim has been incurred, and include estimates amounts for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated considering the effects of inflation, recent claim and health care trends, and other economic and social factors.

The City is fully insured for its employee health plan through the Rhode Island Interlocal Risk Management Trust, Inc., effective July 1, 2013. The City's employee dental plan is provided by Blue Cross on a fully insured basis. Prior to July 1, 2013, the City was self-insured with participation in WB Community Health.

An analysis of claims activity is presented below:

		Liability July 1,	_	Claims and Changes in Estimates		Claims Payments		Liability June 30,
School City	\$ _	1,220,675	\$_	22,289,468 20,851,583	\$_	22,123,499 20,851,583	\$_	1,386,644
2016-2017	\$_	1,220,675	\$_	43,141,051	\$_	42,975,082	\$_	1,386,644
School City	\$	1,386,644	\$	22,995,755 22,039,117	\$_	23,150,143 22,039,117	\$_	1,232,256 -
2017-2018	\$	1,386,644	\$_	45,034,872	\$_	45,189,260	\$_	1,232,256

18. ABATEMENTS

The City has two tax agreements in place in conjunction with the City's tax stabilization ordinance for Warwick Intermodal and Historic Districts. The tax relief relative to these agreements does not begin until fiscal year 2019.

19. ON-BEHALF PAYMENTS

The amount recognized in the School Unrestricted Fund revenues and education expenditures for contributions made by the state on behalf of the City's teachers to the State Employees' Retirement System of Rhode Island was \$7,409,776.

20. PRIOR PERIOD ADJUSTMENT AND RESTATEMENT

The following restatements were recorded to the beginning of net position of the governmental activities as a result of implementation of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions:

	_	Governmental Activities	_	Business-Type Activities	_	Sewer Fund	_	Water Fund
Net position as previously reported at June 30, 2017	\$	(470,530,654) \$	\$	123,348,039	\$	102,463,344	\$	9,534,899
Eliminate Net OPEB Obligation reported per GASB No. 45		158,701,793		5,066,988		2,741,157		2,325,831
Record beginning total OPEB liability per GASB No. 75	_	(395,744,541)	_	(14,333,260)	_	(7,166,630)	_	(7,166,630)
Net Position as Restated at July 1, 2017	\$_	(707,573,402) \$	\$_	114,081,767	\$_	98,037,871	\$_	4,694,100

21. SUBSEQUENT EVENTS

During fiscal year 2019, the City of Warwick received a partial summary judgment in favor of the plaintiffs, ruling that they are entitled to receive a COLA that includes a component based on the holiday pay of active firefighters. The Court has not ruled on the amount of damages owed to retirees dating back to the holiday pay increase of 2015 or entered a final judgment. The City has calculated an amount owed to be estimated at \$591,600.

The Warwick School Department is projecting an un-audited year-end deficit for Fiscal Year 2019 in the amount of \$3,148,800. This amount assumes the School Department will not be funding its portion of 2006 school bond principal and interest payments or receiving the subsequent school housing aid from these payments, which amounts to a net amount of \$1,492,262.

CITY OF WARWICK, RHODE ISLAND NOTES TO REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY DATA AND BUDGETARY COMPLIANCE (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2018

B. Budgetary to GAAP Basis Reconciliation

The following reconciliation summarizes the difference for the City's General Fund and the School Unrestricted Fund between budgetary and GAAP basis accounting principles for the year ended June 30, 2018:

	General Fund	School Unrestricted Fund
Revenues and Other Financing Sources:		
Actual amounts (budgetary basis)	\$ 312,371,361 \$	165,093,132
Difference - budget to GAAP		
The appropriated fund balance is a budgetary revenue but is not a current year revenue for		
financial reporting purposes		(157,477)
The appropriated fund balance drawdown is a budgetary revenue but is not		
a current year revenue for financial reporting purposes	(4,295,271)	
The appropriated fund balance from Reserve for Education is a budgetary revenue but is not		
a current year revenue for financial reporting purposes	(1,218,671)	
Transfer from other funds is a budgetary revenue, but is reported net of the related transfer to		
other funds for financial reporting purposes	(44,455,189)	
Rescue Service Fund revenue net of transfer to General Fund reported as revenue for GAAP		
purposes not included in Budget Basis revenues.	786,674	
The pension contributions made to the Employees Retirement System by the State of		
Rhode Island on behalf of the City of Warwick is not reported as budgetary revenue, but is a		
current year revenue for financial reporting purposes		7,409,776
Total Revenues and Other Financing Sources as Reported in the Statement of Revenues,		
Expenditures and Changes in Fund Balance - Governmental Funds	\$ 263,188,904 \$	172,345,431

CITY OF WARWICK, RHODE ISLAND NOTES TO REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY DATA AND BUDGETARY COMPLIANCE (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2018

B. Budgetary to GAAP Basis Reconciliation (Continued)

	_	General Fund	School Unrestricted Fund
Expenditures and Other Financing Sources:			
Actual amounts (budgetary basis)	\$	308,329,013 \$	164,935,655
Difference - budget to GAAP			
Encumbrances for supplies and equipment ordered but not received are reported in the year			
the order is placed for budgetary purposes, but in the year supplies are received for financial			
reporting purposes.		112,349	
Transfer to School Department is reported at gross amount for budget purposes but is reported			
net of School revenue for GAAP.		(1,531,414)	
Transfer from other funds is a budgetary revenue, but is reported net of the related transfer to			
other funds for financial reporting purposes.		(42,923,775)	
Rescue Service Fund revenue net of transfer to General Fund reported as revenue for GAAP			
purposes not part of the budgetary basis expenditures.		786,674	
The pension contributions made to the Employees Retirement System by the State of			
Rhode Island on behalf of the City of Warwick is not reported as budgetary revenue, but is a			
current year revenue for financial reporting purposes.			7,409,776

Notes to Schedule of Contributions

Valuation date July 1, 2017

Notes

Actuarially determined contribution rates are calculated as of June 30, effective for the fiscal year that begins 12 months after the valuation date.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method For funding purposes, the Entry Age Normal Actuarial Cost Method is used.

Single Equivalent Amortization Period 10 Years Closed Amortization Period for New Gains/Losses 20 years Closed

Asset Valuation Method 5-Year Smoothed Market

Inflation 2.25%

Salary Increases 3.00% to 7.00% including inflation

Investment rate of return 6.90%

Retirement age Experienced-based table of rates that are specific to the type of eligibility condition.

Mortality (Male) 115% of RP-2000 Combined Healthy for Males with White Collar adjustments, projected with Scale AA from 2000.

(Female) 95% of RP-2000 Combined Healthy for Females with White Collar adjustments, projected with Scale AA from 2000.

Other Information:

Notes There were no benefit changes during the year.

Supplemental, Combining and Individual Fund Statements and Schedules

Nonmajor Governmental Funds

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS:

Special Revenue Restricted City Funds- These funds are used to account for revenues from specific taxes or other earmarked revenue sources which by law are designated to finance particular functions or activities of government, and which therefore cannot be diverted to other uses. The following is a list of special revenue funds in this section:

Special Detail Fund - Established to account for the rescue service fees and any related expenditures.

City Clerk Restricted Fund - Established to account for fees and expenditures related to the enhancement of the vital statistic and land evidence systems.

Emergency Operations City - Established to account for the revenues and expenditures associated with the March 2010 Flood Disaster.

Warwick Public Library Restricted Fund -Established to account for receipt and disbursements of grants/donations and related expenditures for library operations.

Open Space Land Dedication Fund - Established to account for residential subdivision fees and related expenditures for public recreation land acquisitions in districts containing these subdivisions.

Sewer Connection Grant - Established to account for the receipt and disbursement of funds relating to a grant program which assists residents with the cost of new sewer connections.

Excess Hotel Tax Fund - Established to reserve economic development portion of state hotel tax exceeding current year tourism related expenditures.

Mooring Fee Reserve Fund - Established to account for waterfront safety fees and related expenditures.

Senior Center Gift Shop - Established to account for receipts and expenditures related to the operation of Pilgrim Senior Center.

JAG Grant - Established to account for grant proceeds received from the U.S. Department of Justice for the purpose of enhancing law enforcement operations and public safety.

Drug Seizure Fund - Established to account for proceeds from drug related property seizures and related anti-drug expenditures.

State Asset Forfeiture - Established to account for proceeds from drug related property seizures and related anti-drug expenditures.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS (CONTINUED):

Community Development Block Grant - Established to account for the annual Entitlement Community program of the U.S. Department of Housing and Urban Development and related expenditures addressing housing and community development needs throughout Warwick. It provides assistance to the low and moderate income population of the City of Warwick.

Lead Reduction Program - Established to account for a grant received from the U.S. Department of Housing and Urban Development. Expenses relate to oversight and monitoring of lead reduction programs for low and moderate income residents of the City of Warwick.

Disaster Recovery Program - Established to account for a grant received from the U.S. Department of Housing and Urban Development. Expenses relate to assisting individuals and businesses affected by the March 2010 flood, with regard to repairing and rehabilitating housing units and public facilities.

School Restricted Funds - Funds established to account for federal, state, and private grant monies used for the benefit of the Warwick School Department. The following is a list of the School funds included in this section:

- IDEA
- IDEA Pre-School
- Title I
- Title II
- E2T2 Training Consortium Title III

NONMAJOR ENTERPRISE FUNDS

The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprise or where the City has decided that periodic determination of net income is appropriate for capital maintenance, management control, accountability, public policy or other purposes.

The following is a list of Nonmajor enterprise funds in this section:

Emergency Operations Enterprise Fund - Accounts for the revenue and expenditures associated with the 2010 flood.

On-Site Revolving Loan Fund - Established to account for the receipt and disbursement of funds relating to a loan/grant program for residents who need to replace their existing septic systems.

Sewer Infrastructure Replacement Fund - Established to provide a funding source for scheduled sewer infrastructure repairs or expansion.

Sewer Renewal & Replacement Fund - Established to provide a funding source for the replacement of sewer equipment and vehicles.

Water Renewal & Replacement Fund - Established to provide a funding source for the replacement of water equipment and vehicles.

Water Restricted Emergency Fund - Established to provide a funding source for emergency water infrastructure repairs.

Water Infrastructure Replacement Fund - Established to provide a funding source for scheduled water infrastructure repairs or expansion.

Statistical Section Information

The objectives of statistical section information are to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess economic condition.

Statistical section information is presented in the following categories:

- Financial trends information is intended to assist users in understanding and assessing how financial position has changed over time.
- Revenue capacity information is intended to assist users in understanding and assessing the factors affecting the ability to generate own-source revenues (property taxes, charges for services, etc.).
- Debt capacity information is intended to assist users in understanding and assessing debt burden and the ability to issue additional debt.
- Demographic and economic information is intended 1) to assist users in understanding the socioeconomic environment and 2) to provide information that facilitates comparisons of financial statement information over time and among governments.
- Operating information is intended to provide contextual information about operations and resources to assist readers in using financial statement information to understand and assess economic condition.

The accompanying tables are presented in the above order. Refer to the Table of Contents for applicable page number locations.

Sources: Unless otherwise noted, the information in the tables is derived from the comprehensive annual financial reports for the relevant year.
